#### **H.4 1852.225-70 EXPORT LICENSES. (FEB 2000)**

(b) The Contractor shall be responsible for obtaining export licenses, if required, before utilizing foreign persons in the performance of this contract, including instances where the work is to be performed on-site at Goddard Space Flight Center or NASA Headquarters, where the foreign person will have access to export-controlled technical data or software.

(End of clause)

#### **H.5 1852.223-70 SAFETY AND HEALTH. (APR 2002)**

(a) Safety is the freedom from those conditions that can cause death, injury, occupational illness, damage to or loss of equipment or property, or damage to the environment. NASA's safety priority is to protect: (1) the public, (2) astronauts and pilots, (3) the NASA workforce (including contractor employees working on NASA contracts), and (4) high-value equipment and property.

(b) The Contractor shall take all reasonable safety and occupational health measures in performing this contract. The Contractor shall comply with all Federal, State, and local laws applicable to safety and occupational health and with the safety and occupational health standards, specifications, reporting requirements, and any other relevant requirements of this contract.

(c) The Contractor shall take, or cause to be taken, any other safety, and occupational health measures the Contracting Officer may reasonably direct. To the extent that the Contractor may be entitled to an equitable adjustment for those measures under the terms and conditions of this contract, the equitable adjustment shall be determined pursuant to the procedures of the changes clause of this contract; provided, that no adjustment shall be made under this Safety and Health clause for any change for which an equitable adjustment is expressly provided under any other clause of the contract.

(d) The Contractor shall immediately notify and promptly report to the Contracting Officer or a designee any accident, incident, or exposure resulting in fatality, lost-time occupational injury, occupational disease, contamination of property beyond any stated acceptable limits set forth in the contract Schedule; or property loss of \$25,000 or more, or Close Call (a situation or occurrence with no injury, no damage or only minor damage (less than \$1,000) but possesses the potential to cause any type mishap, or any injury, damage, or negative mission impact) that may be of immediate interest to NASA, arising out of work performed under this contract. The Contractor is not required to include in any report an expression of opinion as to the fault or negligence of any employee. In addition, service contractors (excluding construction contracts) shall provide quarterly reports specifying lost-time frequency rate, number of lost-time injuries, exposure, and accident/incident dollar losses as specified in the contract Schedule.

(e) The Contractor shall investigate all work-related incidents, accidents, and Close Calls, to the extent necessary to determine their causes and furnish the Contracting Officer a report, in such form as the Contracting Officer may require, of the investigative findings and proposed or completed corrective actions.

(f) (1) The Contracting Officer may notify the Contractor in writing of any noncompliance with this clause and specify corrective actions to be taken. When the Contracting Officer becomes aware of noncompliance that may pose a serious or imminent danger to safety and health of the

public, astronauts and pilots, the NASA workforce (including contractor employees working on NASA contracts), or high value mission critical equipment or property, the Contracting Officer shall notify the Contractor orally, with written confirmation. The Contractor shall promptly take and report any necessary corrective action.

(2) If the Contractor fails or refuses to institute prompt corrective action in accordance with subparagraph (f) (1) of this clause, the Contracting Officer may invoke the stop-work order clause in this contract or any other remedy available to the Government in the event of such failure or refusal.

(g) The Contractor (or subcontractor or supplier) shall insert the substance of this clause, including this paragraph (g) and any applicable Schedule provisions and clauses, with appropriate changes of designations of the parties, in all solicitations and subcontracts of every tier, when one or more of the following conditions exist:

(1) The work will be conducted completely or partly on premises owned or controlled by the Government.

(2) The work includes construction, alteration, or repair of facilities in excess of the simplified acquisition threshold.

(3) The work, regardless of place of performance, involves hazards that could endanger the public, astronauts and pilots, the NASA workforce (including Contractor employees working on NASA contracts), or high value equipment or property, and the hazards are not adequately addressed by Occupational Safety and Health Administration (OSHA) or Department of Transportation (DOT) regulations (if applicable).

(4) When the Contractor (or subcontractor or supplier) determines that the assessed risk and consequences of a failure to properly manage and control the hazard(s) warrants use of the clause.

(h) The Contractor (or subcontractor or supplier) may exclude the provisions of paragraph (g) from its solicitation(s) and subcontract(s) of every tier when it determines that the clause is not necessary because the application of the OSHA and DOT (if applicable) regulations constitute adequate safety and occupational health protection. When a determination is made to exclude the provisions of paragraph (g) from a solicitation and subcontract, the Contractor must notify and provide the basis for the determination to the Contracting Officer. In subcontracts of every tier above the micro-purchase threshold for which paragraph (g) does not apply, the Contractor (or subcontractor or supplier) shall insert the substance of paragraphs (a), (b), (c), and (f) of this clause).

(i) Authorized Government representatives of the Contracting Officer shall have access to and the right to examine the sites or areas where work under this contract is being performed in order to determine the adequacy of the Contractor's safety and occupational health measures under this clause.

(j) The contractor shall continually update the safety and health plan when necessary. In particular, the Contractor shall furnish a list of all hazardous operations to be performed, and a list of other major or key operations required or planned in the performance of the contract, even though not deemed hazardous by the Contractor. NASA and the Contractor shall jointly decide

which operations are to be considered hazardous, with NASA as the final authority. Before hazardous operations commence, the Contractor shall submit for NASA concurrence -

- (1) Written hazardous operating procedures for all hazardous operations; and/or
- (2) Qualification standards for personnel involved in hazardous operations.

(End of clause)

**H.6 1852.242-72 OBSERVANCE OF LEGAL HOLIDAYS. (AUG 1992) -- ALTERNATE II (OCT 2000)**

Labor Day

Martin Luther King, Jr.'s Birthday

Columbus Day

President's Day

Veterans Day

Memorial Day

Thanksgiving Day

Independence Day

Christmas Day

Any other day designated by Federal statute, Executive order, or the President's proclamation.

(b) When any holiday falls on a Saturday, the preceding Friday is observed. When any holiday falls on a Sunday, the following Monday is observed. Observance of such days by Government personnel shall not by itself be cause for an additional period of performance or entitlement of compensation except as set forth within the contract.

(c) When the NASA installation grants administrative leave to its Government employees (e.g., as a result of inclement weather, potentially hazardous conditions, or other special circumstances), Contractor personnel working on-site should also be dismissed. However, the contractor shall provide sufficient on-site personnel to perform round-the-clock requirements of critical work already in process, unless otherwise instructed by the Contracting Officer or authorized representative.

(d) Whenever administrative leave is granted to Contractor personnel pursuant to paragraph (c) of this clause, it shall be without loss to the Contractor. The cost of salaries and wages to the Contractor for the period of any such excused absence shall be a reimbursable item of cost under this contract for employees in accordance with the Contractor's established accounting policy.

**H.8 GSFC 52.204-99 CONTRACTOR PERSONNEL—IDENTIFICATION, ONSITE REPORTING, AND CHECKOUT PROCEDURES (SEPT 2008)**

(a) In accordance with FAR 52.204-9, Personal Identity Verification of Contractor Personnel, the Contractor shall follow Steps 1 through 7 described in Attachment B, Personal Identity Verification (PIV) Card Issuance Procedures, for each contract employee (prime and subcontractor) who will have physical access to a NASA-controlled facility (also referred to as “onsite”). The Contractor must apply for permanent NASA/GSFC PIV cards for those contract employees who will be employed by the Contractor onsite for at least six months. The GSFC Security Division will consider permanent PIV cards for other employees of the Contractor on a case-by-case basis, such as employees that are not resident onsite, but must frequently visit. In the future, upon written notice from the Contracting Officer, the Contractor shall follow Steps 1 through 7 in Attachment B for each offsite contract employee (prime and subcontractor) who require remote access to a NASA information system for contract performance.

(b) The Contractor shall notify the GSFC Security Division, Code 240, Attention: PIV Manager, and the Contracting Officer’s Representative (COR) of the contractor’s designated PIV Requester within 15 calendar days after award of this contract. The NASA maintained PIV system contains work and home location and contact information for personnel that have permanent NASA PIV cards. The Contractor may contact the PIV Manager, Tel 301-286-2306 for assistance regarding the PIV system.

(c) Each contract employee shall provide to the Contractor’s designated PIV Requester the basic identifying information required for a PIV Request to be initiated in the PIV System. The PIV Request must be approved by the PIV Sponsor (COR or the Contracting Officer). The COR will resolve any housing or access issues, and review the request for accuracy and completeness. Requests that are approved by the PIV Sponsor will be forwarded to the GSFC Security Division, Code 240, PIV Authorization, Badge enrollment, and Badge issuance.

(d) The Contractor shall submit an annotated PIV Report each month. The GSFC PIV Manager will furnish a PIV print-out to the Contractor no later than the end of each month. The Contractor shall annotate this provided report monthly to correct and update the information as follows:

- (1) Draw a line through the names of employees who are no longer employed by the contractor or that no longer work onsite under the contract, and;
- (2) Make handwritten changes to any other incorrect data.

The annotated PIV Report shall be separately submitted to the GSFC Security Division, Code 240, Attention: PIV Manager, and to the COR by the 10th calendar day of the month.

For the final PIV Report under the contract, the GSFC PIV Manager will furnish a PIV print-out to the Contractor no later than two weeks prior to the end of the contract. The Contractor shall submit its annotated final PIV Report no later than 3 days prior to the end of the contract.

If this is a follow-on contract, at the end of the phase-in period (if any)/start of the basic contract period, the GSFC Security Division will provide the Contractor a copy of the final PIV Report from the previous contract. The Contractor shall review the list and redline it as necessary to reflect its employees requiring PIV cards. The redlined list shall be provided the GSFC Security Division within 30 days after the start of the contract.

(e) The Contractor shall ensure that all personnel who have NASA/GSFC issued PIV cards, keys or other property who leave its employment or that no longer work onsite, process out

through the GSFC Security Division, Code 240. Employees must return all GSFC issued identification and any Government property no later than the last day of their employment or the last day they work onsite under this contract. The Contractor shall establish appropriate procedures and controls to ensure this is accomplished. Failure to comply may result in the exercise of Government rights to limit and control access to Government premises, including denial of access and invalidation of NASA issued PIV cards and identification.

(End of clause)

## **H.9 GSFC 52.211-95 GOVERNMENT PREMISES—PHYSICAL ACCESS AND COMPLIANCE WITH PROCEDURES (AUG 2012)**

Other personnel may be issued a temporary badge. All personnel must conspicuously display the GSFC PIV card at, or above, the waistline. Refer to GSFC clause 52.204-99, "Contractor Personnel—Identification, Onsite Reporting, and Checkout Procedures" for permanent PIV card issuance procedures.

(2) Visits by foreign nationals are restricted and must be necessary for the performance of the contract and concurred with by the Contracting Officer or by the Contracting Officer's Technical Representative. Approval of such visits must be approved in advance in accordance with Goddard Procedural Requirement (GPR) 1600.1.

(3) Access to the GSFC may be changed or adjusted in response to threat conditions or special situations.

#### **H.10 GSFC 52.223-91 SAFETY AND HEALTH--ADDITIONAL REQUIREMENTS (JUN 2012)**

In addition to compliance with all Federal, state, and local laws as required by paragraph (b) of NFS clause 1852.223-70, the Contractor shall comply with the following:

- (a) Incident Reporting: The immediate notification and prompt reporting requirement included in paragraph (d) of NFS clause 1852.223-70 shall be to the following based on performance location:

OR

NASA Headquarters Safety and Occupational Health, Dept HQ:LM032, Telephone 202-358-0854 and to the Contracting Officer (CO). This verbal notification should be confirmed in writing via E-Mail to the CO and [Christopher.J.Warren@nasa.gov](mailto:Christopher.J.Warren@nasa.gov) and entered into IRIS within 24 hours.

#### **H.11 GSFC 52.227-99 RIGHTS IN DATA (MAR 2008)**

The default Data Rights clause under this contract is FAR 52.227-14 RIGHTS IN DATA-GENERAL as modified by NASA FAR Supplement 1852.227-14—Alternate II and Alternate III and GSFC 52.227-90. Any exceptions to this clause will be covered by FAR 52.227-17 RIGHTS IN DATA--SPECIAL WORKS as modified by NASA FAR Supplement 1852.227-17, and, if applicable, GSFC 52.227-93.

(End of clause)

#### **H.12 GSFC 52.242-91 ADVANCED AGREEMENT BETWEEN THE PARTIES: REQUIREMENT TO PROVIDE CONTRACT HISTORICAL DATA (MAR 2011)**

- (a) NASA may issue a competitive solicitation for a follow-on effort for services similar to those provided under this contract. As part of this follow-on competition, NASA may include historical labor category descriptions, full-time equivalents (FTEs), average direct labor rates, and other information from this contract in the follow-on solicitation for use by all potential Offerors. Including this data in the solicitation is intended to ensure a comprehensive and fair evaluation of competitive proposals and increase the probability that realistic pricing is provided in future proposals submitted. Minimizing the potential risk for unrealistic or unsubstantiated pricing materially reduces the risk that cost/price could become an inappropriate discriminator among competing Offerors.
- (b) Based on the above, the Contractor shall, within 30 days of a written request from the Contracting Officer, provide and deliver all of the information included in **Attachment I, CONTRACT HISTORICAL DATA**, of the contract.

(End of Clause)

#### **H. 13 APPLICABILITY OF RIGHTS IN DATA – SPECIAL WORKS (GSFC 52.227-93) (MAR 2008)**

**I.91 52.219-28 POST-AWARD SMALL BUSINESS PROGRAM REREPRESENTATION. (APR 2012)**

(a) *Definitions.* As used in this clause -

"Long-term contract" means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

"Small business concern" means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause. Such a concern is "not dominant in its field of operation" when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(b) If the Contractor represented that it was a small business concern prior to award of this contract, the Contractor shall represent its size status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon the occurrence of any of the following:

- (1) Within 30 days after execution of a novation agreement or within 30 days after modification

of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts -

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code assigned to this contract. The small business size standard corresponding to this NAICS code can be found at <http://www.sba.gov/content/table-small-business-size-standards>.

(d) The small business size standard for a Contractor providing a product which it does not manufacture itself, for a contract other than a construction or service contract, is 500 employees.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the rerepresentation required by paragraph (b) of this clause by validating or updating all its representations in the Online Representations and Certifications Application and its data in the Central Contractor Registration, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting office in writing within the timeframes specified in paragraph (b) of this clause that the data have been validated or updated, and provide the date of the validation or update.

**I.93 RIGHTS IN DATA-GENERAL (52.227-14)(DEC 2007) as modified by NASA FAR Supplement 1852.227-14—ALTERNATE II (DEC 2007) AND ALTERNATE III (DEC 2007)**

(a) *Definitions.* As used in this clause-

"Computer database" or "database means" a collection of recorded information in a form capable of, and for the purpose of, being stored in, processed, and operated on by a computer. The term does not include computer software.

"Computer software"-

(1) Means

(i) Computer programs that comprise a series of instructions, rules, routines, or statements, regardless of the media in which recorded, that allow or cause a computer to perform a specific operation or series of operations; and

(ii) Recorded information comprising source code listings, design details, algorithms, processes, flow charts, formulas, and related material that would enable the computer program to be produced, created, or compiled.

(2) Does not include computer databases or computer software documentation.

"Computer software documentation" means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

"Data" means recorded information, regardless of form or the media on which it may be recorded. The term includes technical data and computer software. The term does not include information incidental to contract administration, such as financial, administrative, cost or pricing, or management information.

"Form, fit, and function data" means data relating to items, components, or processes that are sufficient to enable physical and functional interchangeability, and data identifying source, size, configuration, mating and attachment characteristics, functional characteristics, and performance requirements. For computer software it means data identifying source, functional characteristics, and performance requirements but specifically excludes the source code, algorithms, processes, formulas, and flow charts of the software.

"Limited rights" means the rights of the Government in limited rights data as set forth in the Limited Rights Notice of paragraph (g)(3) if included in this clause.

"Limited rights data" means data, other than computer software, that embody trade secrets or are commercial or financial and confidential or privileged, to the extent that such data pertain to items, components, or processes developed at private expense, including minor modifications.

"Restricted computer software" means computer software developed at private expense and that is a trade secret, is commercial or financial and confidential or privileged, or is copyrighted computer software, including minor modifications of the computer software.

"Restricted rights," as used in this clause, means the rights of the Government in restricted computer software, as set forth in a Restricted Rights Notice of paragraph (g) if included in this clause, or as otherwise may be provided in a collateral agreement incorporated in and made part of this contract, including minor modifications of such computer software.

"Technical data" means recorded information (regardless of the form or method of the recording) of a scientific or technical nature (including computer databases and computer software documentation). This term does not include computer software or financial, administrative, cost or pricing, or management data or other information incidental to contract administration. The term includes recorded information of a scientific or technical nature that is included in computer databases (See [41 U.S.C. 403\(8\)](#)).

"Unlimited rights" means the rights of the Government to use, disclose, reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, in any manner and for any purpose, and to have or permit others to do so.

(b) Allocation of rights.

(1) Except as provided in paragraph (c) of this clause, the Government shall have unlimited rights in-

- (i) Data first produced in the performance of this contract;
- (ii) Form, fit, and function data delivered under this contract;
- (iii) Data delivered under this contract (except for restricted computer software) that constitute manuals or instructional and training material for installation, operation, or routine maintenance and repair of items, components, or processes delivered or furnished for use under this contract; and
- (iv) All other data delivered under this contract unless provided otherwise for limited rights data or restricted computer software in accordance with paragraph (g) of this clause.

(2) The Contractor shall have the right to-

- (i) Assert copyright in data first produced in the performance of this contract to the extent provided in paragraph (c)(1) of this clause;
- (ii) Use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the Contractor in the performance of this contract, unless provided otherwise in paragraph (d) of this clause;
- (iii) Substantiate the use of, add, or correct limited rights, restricted rights, or copyright notices and to take other appropriate action, in accordance with paragraphs (e) and (f) of this clause; and
- (iv) Protect from unauthorized disclosure and use those data that are limited rights data or restricted computer software to the extent provided in paragraph (g) of this clause.

(c) Copyright-

(1) Data first produced in the performance of this contract.

- (i) Unless provided otherwise in paragraph (d) of this clause, the Contractor may, without prior approval of the Contracting Officer, assert copyright in scientific and technical articles based on or containing data first produced in the performance of this contract and published in academic, technical or professional journals, symposia proceedings, or similar works. The prior, express written permission of the Contracting Officer is required to assert copyright in all other data first produced in the performance of this contract.
- (ii) When authorized to assert copyright to the data, the Contractor shall affix the applicable copyright notices of [17 U.S.C. 401 or 402](#), and an acknowledgment of Government sponsorship (including contract number).
- (iii) For data other than computer software, the Contractor grants to the Government, and others acting on its behalf, a paid-up, nonexclusive, irrevocable, worldwide license in such copyrighted data to reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly by or on behalf of the Government. For computer software, the Contractor grants to the Government, and others acting on its behalf, a paid-up, nonexclusive, irrevocable, worldwide license in such copyrighted computer software to reproduce, prepare derivative works, and perform publicly and display publicly (but not to distribute copies to the public) by or on behalf of the Government.

(2) *Data not first produced in the performance of this contract.* The Contractor shall not, without the prior written permission of the Contracting Officer, incorporate in data delivered under this contract any data not first produced in the performance of this contract unless the Contractor-

(i) Identifies the data; and

(ii) Grants to the Government, or acquires on its behalf, a license of the same scope as set forth in paragraph (c)(1) of this clause or, if such data are restricted computer software, the Government shall acquire a copyright license as set forth in paragraph (g)(4) of this clause (if included in this contract) or as otherwise provided in a collateral agreement incorporated in or made part of this contract.

(3) *Removal of copyright notices.* The Government will not remove any authorized copyright notices placed on data pursuant to this paragraph (c), and will include such notices on all reproductions of the data.

(d) *Release, publication, and use of data.* The Contractor shall have the right to use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the Contractor in the performance of this contract, except-

(1) As prohibited by Federal law or regulation (e.g., export control or national security laws or regulations);

(2) As expressly set forth in this contract; or

(3) If the Contractor receives or is given access to data necessary for the performance of this contract that contain restrictive markings, the Contractor shall treat the data in accordance with such markings unless specifically authorized otherwise in writing by the Contracting Officer.

(i) The Contractor agrees not to establish claim to copyright, publish or release to others any computer software first produced in the performance of this contract without the Contracting Officer's prior written permission.

(ii) If the Government desires to obtain copyright in computer software first produced in the performance of this contract and permission has not been granted as set forth in paragraph (d)(3)(i) of this clause, the Contracting Officer may direct the contractor to assert, or authorize the assertion of, claim to copyright in such data and to assign, or obtain the assignment of, such copyright to the Government or its designated assignee.

(iii) Whenever the word "establish" is used in this clause, with reference to a claim to copyright, it shall be construed to mean "assert".

(e) Unauthorized marking of data.

(1) Notwithstanding any other provisions of this contract concerning inspection or acceptance, if any data delivered under this contract are marked with the notices specified in paragraph (g)(3) or (g) (4) if included in this clause, and use of the notices is not authorized by this clause, or if the data bears any other restrictive or limiting markings not authorized by this contract, the Contracting Officer may at any time either return the data to the Contractor, or cancel or ignore the markings. However, pursuant to [41 U.S.C. 253d](#), the following procedures shall apply prior to canceling or ignoring the markings.

(i) The Contracting Officer will make written inquiry to the Contractor affording the Contractor 60 days from receipt of the inquiry to provide written justification to substantiate the propriety of the markings;

(ii) If the Contractor fails to respond or fails to provide written justification to substantiate the propriety of the markings within the 60-day period (or a longer time approved in writing by the Contracting Officer for good cause shown), the Government shall have the right to cancel or ignore the markings at any time after said period and the data will no longer be made subject to any disclosure prohibitions.

(iii) If the Contractor provides written justification to substantiate the propriety of the markings within the period set in paragraph (e)(1)(i) of this clause, the Contracting Officer will consider such written justification and determine whether or not the markings are to be cancelled or ignored. If the Contracting Officer determines that the markings are authorized, the Contractor will be so notified in writing. If the Contracting Officer determines, with concurrence of the head of the contracting activity, that the markings are not authorized, the Contracting Officer will furnish the Contractor a written determination, which determination will become the final agency decision regarding the appropriateness of the markings unless the Contractor files suit in a court of competent jurisdiction within 90 days of receipt of the Contracting Officer's decision. The Government will continue to abide by the markings under this paragraph (e)(1)(iii) until final resolution of the matter either by the Contracting Officer's determination becoming final (in which instance the Government will thereafter have the right to cancel or ignore the markings at any time and the data will no longer be made subject to any disclosure prohibitions), or by final disposition of the matter by court decision if suit is filed.

(2) The time limits in the procedures set forth in paragraph (e)(1) of this clause may be modified in accordance with agency regulations implementing the Freedom of Information Act ([5 U.S.C. 552](#)) if necessary to respond to a request thereunder.

(3) Except to the extent the Government's action occurs as the result of final disposition of the matter by a court of competent jurisdiction, the Contractor is not precluded by paragraph (e) of the clause from bringing a claim, in accordance with the Disputes clause of this contract, that may arise as the result of the Government removing or ignoring authorized markings on data delivered under this contract.

(f) Omitted or incorrect markings.

(1) Data delivered to the Government without any restrictive markings shall be deemed to have been furnished with unlimited rights. The Government is not liable for the disclosure, use, or reproduction of such data.

(2) If the unmarked data has not been disclosed without restriction outside the Government, the Contractor may request, within 6 months (or a longer time approved by the Contracting Officer in writing for good cause shown) after delivery of the data, permission to have authorized notices placed on the data at the Contractor's expense. The Contracting Officer may agree to do so if the Contractor-

(i) Identifies the data to which the omitted notice is to be applied;

(ii) Demonstrates that the omission of the notice was inadvertent;

(iii) Establishes that the proposed notice is authorized; and

(iv) Acknowledges that the Government has no liability for the disclosure, use, or reproduction of any data made prior to the addition of the notice or resulting from the omission of the notice.

(3) If data has been marked with an incorrect notice, the Contracting Officer may-

(i) Permit correction of the notice at the Contractor's expense if the Contractor identifies the data and demonstrates that the correct notice is authorized; or

(ii) Correct any incorrect notices.

(g) Protection of limited rights data and restricted computer software.

(1) The Contractor may withhold from delivery qualifying limited rights data or restricted computer software that are not data identified in paragraphs (b)(1)(i), (ii), and (iii) of this clause. As a condition to this withholding, the Contractor shall-

(i) Identify the data being withheld; and

(ii) Furnish form, fit, and function data instead.

(2) Limited rights data that are formatted as a computer database for delivery to the Government shall be treated as limited rights data and not restricted computer software.

(3) Notwithstanding paragraph (g)(1) of this clause, the contract may identify and specify the delivery of limited rights data, or the Contracting Officer may require by written request the delivery of limited rights data that has been withheld or would otherwise be entitled to be withheld. If delivery of that data is required, the Contractor shall affix the following "Limited Rights Notice" to the data and the Government will treat the data, subject to the provisions of paragraphs (e) and (f) of this clause, in accordance with the notice:

Limited Rights Notice (Dec 2007)

(a) These data are submitted with limited rights under Government Contract No. \_\_\_\_\_ (and subcontract \_\_\_\_\_, if appropriate). These data may be reproduced and used by the Government with the express limitation that they will not, without written permission of the Contractor, be used for purposes of manufacture nor disclosed outside the Government; except that the Government may disclose these data outside the Government for the following purposes, if any; provided that the Government makes such disclosure subject to prohibition against further use and disclosure:

(i) Use (except for manufacture) by support service contractors.

(ii) Evaluation by nongovernment evaluators.

(iii) Use (except for manufacture) by other contractors participating in the Government's program of which the specific contract is a part.

(iv) Emergency repair or overhaul work.

(v) Release to a foreign government, or its instrumentalities, if required to serve the interests of the U.S. Government, for information or evaluation, or for emergency repair or overhaul work by the foreign government.

(vi) or any other legitimate government use

(b) This notice shall be marked on any reproduction of these data, in whole or in part.

(End of notice)

(4)(i) Notwithstanding paragraph (g)(1) of this clause, the contract may identify and specify the delivery of restricted computer software, or the Contracting Officer may require by written request the delivery of restricted computer software that has been withheld or would otherwise be entitled to be withheld. If delivery of that computer software is required, the Contractor shall affix the following "Restricted Rights Notice" to the computer software and the Government will treat the computer software, subject to paragraphs (e) and (f) of this clause, in accordance with the notice:

Restricted Rights Notice (Dec 2007)

(a) This computer software is submitted with restricted rights under Government Contract No. \_\_\_\_\_ (and subcontract \_\_\_\_\_, if appropriate). It may not be used, reproduced, or disclosed by the Government except as provided in paragraph (b) of this notice or as otherwise expressly stated in the contract.

(b) This computer software may be-

(1) Used or copied for use with the computer(s) for which it was acquired, including use at any Government installation to which the computer(s) may be transferred;

(2) Used or copied for use with a backup computer if any computer for which it was acquired is inoperative;

(3) Reproduced for safekeeping (archives) or backup purposes;

(4) Modified, adapted, or combined with other computer software, *provided* that the modified, adapted, or combined portions of the derivative software incorporating any of the delivered, restricted computer software shall be subject to the same restricted rights;

(5) Disclosed to and reproduced for use by support service Contractors or their subcontractors in accordance with paragraphs (b)(1) through (4) of this notice; and

(6) Used or copied for use with a replacement computer and other legitimate government use.

(c) Notwithstanding the foregoing, if this computer software is copyrighted computer software, it is licensed to the Government with the minimum rights set forth in paragraph (b) of this notice.

(d) Any other rights or limitations regarding the use, duplication, or disclosure of this computer software are to be expressly stated in, or incorporated in, the contract.

(e) This notice shall be marked on any reproduction of this computer software, in whole or in part.

(End of notice)

(ii) Where it is impractical to include the Restricted Rights Notice on restricted computer software, the following short-form notice may be used instead:

Restricted Rights Notice Short Form (Jun 1987)

Use, reproduction, or disclosure is subject to restrictions set forth in Contract No. \_\_\_\_\_ (and subcontract, if appropriate) with \_\_\_\_\_ (name of Contractor and subcontractor).

(End of notice)

(iii) If restricted computer software is delivered with the copyright notice of [17 U.S.C. 401](#), it will be presumed to be licensed to the Government without disclosure prohibitions, with the minimum rights set forth in paragraph (b) of this clause.

(h) *Subcontracting*. The Contractor shall obtain from its subcontractors all data and rights therein necessary to fulfill the Contractor's obligations to the Government under this contract. If a subcontractor refuses to accept terms affording the Government those rights, the Contractor shall promptly notify the Contracting Officer of the refusal and shall not proceed with the subcontract award without authorization in writing from the Contracting Officer.

(i) *Relationship to patents or other rights*. Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government.

(End of clause)

#### **I.94 52.232-18 AVAILABILITY OF FUNDS. (APR 1984)**

Funds are not presently available for this contract. The Government's obligation under this contract is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are made available to the Contracting Officer for this contract and until the Contractor receives notice of such availability, to be confirmed in writing by the Contracting Officer.

(End of clause)

#### **I.95 52.232-99 PROVIDING ACCELERATED PAYMENT TO SMALL BUSINESS SUBCONTRACTORS. DEVIATION (AUG 2012)**

- (a) Upon receipt of accelerated payments from the Government, the contractor is required to make accelerated payments to small business subcontractors to the maximum extent practicable after receipt of a proper invoice and all proper documentation from the small business subcontractor.
- (b) Include the substance of this clause, including this paragraph (b), in all subcontracts with small business concerns.
- (c) The acceleration of payments under this clause does not provide any new rights under the Prompt Payment Act.

**I.99 1852.204-76 SECURITY REQUIREMENTS FOR UNCLASSIFIED INFORMATION TECHNOLOGY RESOURCES. (JAN 2011)**

(a) The contractor shall protect the confidentiality, integrity, and availability of NASA Electronic Information and IT resources and protect NASA Electronic Information from unauthorized disclosure.

(b) This clause is applicable to all NASA contractors and sub-contractors that process, manage, access, or store unclassified electronic information, to include Sensitive But Unclassified (SBU) information, for NASA in support of NASA's missions, programs, projects and/or institutional requirements. Applicable requirements, regulations, policies, and guidelines are identified in the Applicable Documents List (ADL) provided as an attachment to the contract. The documents

listed in the ADL can be found at: <http://www.nasa.gov/offices/ocio/itsecurity/index.html>. For policy information considered sensitive, the documents will be identified as such in the ADL and made available through the Contracting Officer.

(c) Definitions.

(1) IT resources means any hardware or software or interconnected system or subsystem of equipment, that is used to process, manage, access, or store electronic information.

(2) NASA Electronic Information is any data (as defined in the Rights in Data clause of this contract) or information (including information incidental to contract administration, such as financial, administrative, cost or pricing, or management information) that is processed, managed, accessed or stored on an IT system(s) in the performance of a NASA contract.

(3) IT Security Management Plan--This plan shall describe the processes and procedures that will be followed to ensure appropriate security of IT resources that are developed, processed, or used under this contract. Unlike the IT security plan, which addresses the IT system, the IT Security Management Plan addresses how the contractor will manage personnel and processes associated with IT Security on the instant contract.

(4) IT Security Plan--this is a FISMA requirement; see the ADL for applicable requirements. The IT Security Plan is specific to the IT System and not the contract. Within 30 days after award, the contractor shall develop and deliver an IT Security Management Plan to the Contracting Officer; the approval authority will be included in the ADL. All contractor personnel requiring physical or logical access to NASA IT resources must complete NASA's annual IT Security Awareness training. Refer to the IT Training policy located in the IT Security Web site at <https://itsecurity.nasa.gov/policies/index.html>.

(d) The contractor shall afford Government access to the Contractor's and subcontractors' facilities, installations, operations, documentation, databases, and personnel used in performance of the contract. Access shall be provided to the extent required to carry out a program of IT inspection (to include vulnerability testing), investigation and audit to safeguard against threats and hazards to the integrity, availability, and confidentiality of NASA Electronic Information or to the function of IT systems operated on behalf of NASA, and to preserve evidence of computer crime.

(e) At the completion of the contract, the contractor shall return all NASA information and IT resources provided to the contractor during the performance of the contract in accordance with retention documentation available in the ADL. The contractor shall provide a listing of all NASA Electronic information and IT resources generated in performance of the contract. At that time, the contractor shall request disposition instructions from the Contracting Officer. The Contracting Officer will provide disposition instructions within 30 calendar days of the contractor's request. Parts of the clause and referenced ADL may be waived by the contracting officer, if the contractor's ongoing IT security program meets or exceeds the requirements of NASA Procedural Requirements (NPR) 2810.1 in effect at time of award. The current version of NPR 2810.1 is referenced in the ADL. The contractor shall submit a written waiver request to the Contracting Officer within 30 days of award. The waiver request will be reviewed by the Center IT Security Manager. If approved, the Contractor Officer will notify the contractor, by contract modification, which parts of the clause or provisions of the ADL are waived.

(f) The contractor shall insert this clause, including this paragraph in all subcontracts that

process, manage, access or store NASA Electronic Information in support of the mission of the Agency.

(End of clause)

**I.100 1852.215-84 OMBUDSMAN. (NOV 2011) -- ALTERNATE I (JUN 2000)**

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from Offerors, potential Offerors, and contractors during the preaward and postaward phases of this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman is not to diminish the authority of the contracting officer, the Source Evaluation Board, or the selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of formal contract disputes. Therefore, before consulting with an ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations to the contracting officer for resolution.

(b) If resolution cannot be made by the contracting officer, interested parties may contact the installation ombudsman, whose name, address, telephone number, facsimile number, and email address may be found at:

[http://prod.nais.nasa.gov/pub/pub\\_library/Omb.html](http://prod.nais.nasa.gov/pub/pub_library/Omb.html). Concerns, issues, disagreements, and recommendations which cannot be resolved at the installation may be referred to the Agency ombudsman identified at the above URL. Please do not contact the ombudsman to request copies of the solicitation, verify offer due date, or clarify technical requirements. Such inquiries shall be directed to the Contracting Officer or as specified elsewhere in this document.

(c) If this is a task or delivery order contract, the ombudsman shall review complaints from contractors and ensure they are afforded a fair opportunity to be considered, consistent with the procedures of the contract.

(End of clause)

**I.101 1852.219-76 NASA 8 PERCENT GOAL. (JUL 1997)**

(a) Definitions.

"Historically Black Colleges or University," as used in this clause, means an institution determined by the Secretary of Education to meet the requirements of 34 CFR Section 608.2. The term also includes any nonprofit research institution that was an integral part of such a college or university before November 14, 1986.

"Minority institutions," as used in this clause, means an institution of higher education meeting the requirements of section 1046(3) of the Higher Education Act of 1965 (20 U.S.C. 1135d-5(3)) which for the purposes of this clause includes a Hispanic-serving institution of higher education as defined in section 316(b)(1) of the Act (20 U.S.C. 1059c(b)(1)).

"Small disadvantaged business concern," as used in this clause, means a small business concern that (1) is at least 51 percent unconditionally owned by one or more individuals who are both socially and economically disadvantaged, or a publicly owned business having at least 51 percent of its stock unconditionally owned by one or more socially and economically disadvantaged individuals, and (2) has its management and daily business controlled by one or more such individuals. This term also means a small business concern that is at least 51 percent unconditionally owned by an economically disadvantaged Indian tribe or Native

Hawaiian Organization, or a publicly owned business having at least 51 percent of its stock unconditionally owned by one or more of these entities, which has its management and daily business controlled by members of an economically disadvantaged Indian tribe or Native Hawaiian Organization, and which meets the requirements of 13 CFR 124.

"Women-owned small business concern," as used in this clause, means a small business concern (1) which is at least 51 percent owned by one or more women or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women, and (2) whose management and daily business operations are controlled by one or more women.

(b) The NASA Administrator is required by statute to establish annually a goal to make available to small disadvantaged business concerns, Historically Black Colleges and Universities, minority institutions, and women-owned small business concerns, at least 8 percent of NASA's procurement dollars under prime contracts or subcontracts awarded in support of authorized programs, including the space station by the time operational status is obtained.

(c) The contractor hereby agrees to assist NASA in achieving this goal by using its best efforts to award subcontracts to such entities to the fullest extent consistent with efficient contract performance.

(d) Contractors acting in good faith may rely on written representations by their subcontractors regarding their status as small disadvantaged business concerns, Historically Black Colleges and Universities, minority institutions, and women-owned small business concerns.

(End of clause)

#### **I.102 1852.225-71 RESTRICTION ON FUNDING ACTIVITY WITH CHINA (FEB 2012)**

(a) Definition - "China" or "Chinese-owned company" means the People's Republic of China, any company owned by the People's Republic of China or any company incorporated under the laws of the People's Republic of China.

(b) Public Laws 112-10, Section 1340(a) and 112-55, Section 539, restrict NASA from contracting to participate, collaborate, coordinate bilaterally in any way with China or a Chinese-owned company using funds appropriated on or after April 25, 2011. Contracts for commercial and non developmental items are exempted from the prohibition because they constitute purchase of goods or services that would not involve participation, collaboration, or coordination between the parties.

(c) This contract may use restricted funding that was appropriated on or after April 25, 2011. The contractor shall not contract with China or Chinese-owned companies for any effort related to this contract except for acquisition of commercial and non-developmental items. If the contractor anticipates making an award to China or Chinese-owned companies, the contractor must contact the contracting officer to determine if funding on this contract can be used for that purpose.

(d) Subcontracts - The contractor shall include the substance of this clause in all subcontracts made hereunder.

(End of clause)

**I.103 1852.228-75 MINIMUM INSURANCE COVERAGE. (OCT 1988)**

The Contractor shall obtain and maintain insurance coverage as follows for the performance of this contract:

(a) Worker's compensation and employer's liability insurance as required by applicable Federal and state workers' compensation and occupational disease statutes. The employer's liability coverage shall be at least \$100,000, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers.

(b) Comprehensive general (bodily injury) liability insurance of at least \$500,000 per occurrence.

sensitive or privileged.

(b) To assist NASA in accomplishing management activities and administrative functions, the Contractor shall provide the services specified elsewhere in this contract.

(c) If performing this contract entails access to sensitive information, as defined above, the Contractor agrees to -

- (1) Utilize any sensitive information coming into its possession only for the purposes of performing the services specified in this contract, and not to improve its own competitive position in another procurement.
  - (2) Safeguard sensitive information coming into its possession from unauthorized use and disclosure.

  - (4) Preclude access and disclosure of sensitive information to persons and entities outside of the Contractor's organization.

- (d) The Contractor will comply with all procedures and obligations specified in its Organizational Conflicts of Interest Avoidance Plan, which this contract incorporates as a compliance document.
- (e) The nature of the work on this contract may subject the Contractor and its employees to a variety of laws and regulations relating to ethics, conflicts of interest, corruption, and other criminal or civil matters relating to the award and administration of government contracts. Recognizing that this contract establishes a high standard of accountability and trust, the Government will carefully review the Contractor's performance in relation to the mandates and restrictions found in these laws and regulations. Unauthorized uses or disclosures of sensitive information may result in termination of this contract for default, or in debarment of the Contractor for serious misconduct affecting present responsibility as a government contractor.
- (f) The Contractor shall include the substance of this clause, including this paragraph (f) , suitably modified to reflect the relationship of the parties, in all subcontracts that may involve access to sensitive information

(End of clause)

#### **I.106 1852.237-73 RELEASE OF SENSITIVE INFORMATION. (JUN 2005)**

(a) As used in this clause, "Sensitive information" refers to information, not currently in the public domain, that the Contractor has developed at private expense, that may embody trade secrets or commercial or financial information, and that may be sensitive or privileged.

(b) In accomplishing management activities and administrative functions, NASA relies heavily on the support of various service providers. To support NASA activities and functions, these service providers, as well as their subcontractors and their individual employees, may need access to sensitive information submitted by the Contractor under this contract. By submitting

this proposal or performing this contract, the Contractor agrees that NASA may release to its service providers, their subcontractors, and their individual employees, sensitive information submitted during the course of this procurement, subject to the enumerated protections mandated by the clause at 1852.237-72, Access to Sensitive Information.

(c) (1) The Contractor shall identify any sensitive information submitted in support of this proposal or in performing this contract. For purposes of identifying sensitive information, the Contractor may, in addition to any other notice or legend otherwise required, use a notice similar to the following:

Mark the title page with the following legend:

This proposal or document includes sensitive information that NASA shall not disclose outside the Agency and its service providers that support management activities and administrative functions. To gain access to this sensitive information, a service provider's contract must contain the clause at NFS 1852.237-72, Access to Sensitive Information. Consistent with this clause, the service provider shall not duplicate, use, or disclose the information in whole or in part for any purpose other than to perform the services specified in its contract. This restriction does not limit the Government's right to use this information if it is obtained from another source without restriction. The information subject to this restriction is contained in pages [*insert page numbers or other identification of pages*]. Mark each page of sensitive information the Contractor wishes to restrict with the following legend:

Use or disclosure of sensitive information contained on this page is subject to the restriction on the title page of this proposal or document.

(2) The Contracting Officer shall evaluate the facts supporting any claim that particular information is "sensitive." This evaluation shall consider the time and resources necessary to protect the information in accordance with the detailed safeguards mandated by the clause at 1852.237-72, Access to Sensitive Information. However, unless the Contracting Officer decides, with the advice of Center counsel, that reasonable grounds exist to challenge the Contractor's claim that particular information is sensitive, NASA and its service providers and their employees shall comply with all of the safeguards contained in paragraph (d) of this clause.

(d) To receive access to sensitive information needed to assist NASA in accomplishing management activities and administrative functions, the service provider must be operating under a contract that contains the clause at 1852.237-72, Access to Sensitive Information. This clause obligates the service provider to do the following:

(1) Comply with all specified procedures and obligations, including the Organizational Conflicts of Interest Avoidance Plan, which the contract has incorporated as a compliance document.

(2) Utilize any sensitive information coming into its possession only for the purpose of performing the services specified in its contract.

(3) Safeguard sensitive information coming into its possession from unauthorized use and disclosure.

(4) Allow access to sensitive information only to those employees that need it to perform services under its contract.

(5) Preclude access and disclosure of sensitive information to persons and entities outside of

the service provider's organization.

(6) Train employees who may require access to sensitive information about their obligations to utilize it only to perform the services specified in its contract and to safeguard it from unauthorized use and disclosure.

(7) Obtain a written affirmation from each employee that he/she has received and will comply with training on the authorized uses and mandatory protections of sensitive information needed in performing this contract.

(8) Administer a monitoring process to ensure that employees comply with all reasonable security procedures, report any breaches to the Contracting Officer, and implement any necessary corrective actions.

(e) When the service provider will have primary responsibility for operating an information technology system for NASA that contains sensitive information, the service provider's contract shall include the clause at 1852.204-76, Security Requirements for Unclassified Information Technology Resources. The Security Requirements clause requires the service provider to implement an Information Technology Security Plan to protect information processed, stored, or transmitted from unauthorized access, alteration, disclosure, or use. Service provider personnel requiring privileged access or limited privileged access to these information technology systems are subject to screening using the standard National Agency Check (NAC) forms appropriate to the level of risk for adverse impact to NASA missions. The Contracting Officer may allow the service provider to conduct its own screening, provided the service provider employs substantially equivalent screening procedures.

(f) This clause does not affect NASA's responsibilities under the Freedom of Information Act.

(g) The Contractor shall insert this clause, including this paragraph (g), suitably modified to reflect the relationship of the parties, in all subcontracts that may require the furnishing of sensitive information.

(End of clause)

## **L.18 PROPOSAL PREPARATION—GENERAL INSTRUCTIONS (APR 2012)**

It is NASA's intent, by providing the instructions set forth below, to solicit information that will demonstrate the Offeror's competence to successfully complete the requirements specified in the Statement of Work (SOW), Attachment A and Representative Task Orders (RTOs), Exhibit 17. Generally, the proposal should:

- Demonstrate understanding of the overall and specific requirements of the proposed contract.
- Convey the company's capabilities for transforming understanding into accomplishment.
- Present in detail, the plans and methods for so doing.
- Present the costs associated with so doing.

In the event that other organizations are proposed as being involved in conducting this work, their relationships during the effort shall be explained and their proposed contributions shall be identified and integrated into each part of the proposal, as appropriate.

As part of the Request for Proposal, the offer shall respond to how they would approach several RTOs (See L.20-Mission Suitability Proposal Instructions). **THE OFFEROR IS NOT TO PERFORM ANY ACTUAL WORK OR PRODUCE ANY DELIVERABLES ON THE REPRESENTATIVE TASK ORDERS (RTOs) IN RESPONSE TO THE RFP!**

**The RTOs included in exhibit 17 are tasks that the Government intends to use for evaluation purposes. However, Offerors are also advised that the Government will award the evaluated RTOs during the phase-in period of the contract. Upon award, these tasks are expected to become stand alone delivery orders subject to availability of funds.**

### **(a) PROPOSAL FORMAT AND ORGANIZATION**

(1) Offerors shall submit proposals in four volumes as specified below:

<b>Volume</b>	<b>Title</b>	<b>Copies</b>
I	Offer Volume	Original plus 2 Hard Copies and two electronic copies
II	Mission Suitability Volume	Original plus 6 Hard Copies and two electronic copies
III	Cost Volume	Original plus 6 Hard Copies, and one additional copy for DCAA and two electronic copies
IV	Past Performance Volume	Original plus 6 Hard Copies and two electronic copies

(2) Offerors and proposed significant subcontractors for cost proposal purposes defined as any subcontract that is likely to exceed 40% of a proposed Representative Task Orders

(RTOs) cumulative estimate. Shall include one (1) additional separately packaged copy of their Cost Proposal, marked "Enter correct RFP number/NASA Proposal Evaluation Material", which the Government will forward to the cognizant Defense Contract Audit Agency (DCAA) office with their audit request.

(3) All pages of Volumes I, II, III, and IV shall be numbered and identified with the Offeror's name, RFP number and date. Subsequent revisions, if requested, shall be similarly identified to show revision number and date. A table of contents shall be provided with figures and tables listed separately.

(4) Two electronic copies of the Offeror's proposal, designating one as "back-up," shall be submitted (in addition to the hardcopies specified above). All volumes shall be prepared using either Microsoft Word (with backwards compatibility for Microsoft Word 2003) or a searchable Portable Document Format (PDF) compatible with Adobe Reader 9. Cost proposal charts shall use Microsoft Excel (with backwards compatibility for Microsoft Excel 2003). Formulas, not values should be used in Excel spreadsheets, unless otherwise directed in the cost model instructions, where amounts are calculated in electronic versions. DO NOT compress any electronic files. DO NOT password protect any portion of your electronic submission.

Electronic files of Volumes I, II, III, and IV shall be on virus free CD-ROM (CD-R format) discs with an external label indicating: (1) the name of the Offeror, (2) the RFP number, (3) the format and software versions used, (4) a list of the files contained on the disk and (5) date of the information. In the event of any inconsistency between data provided on electronic media and hard copies, the hard copy data will be considered to be correct.

(5) The format for each proposal volume shall parallel, to the greatest extent possible, the format of the evaluation factors contained in Section L of this solicitation. The proposal content shall provide a basis for evaluation against the requirements of this solicitation, which will be evaluated in accordance with Section M. The proposal content shall provide a basis for evaluation against the requirements of the solicitation. Each volume of the proposal shall specify the relevant evaluation criteria being addressed, if appropriate. The proposal shall include a matrix showing where in the proposal the technical requirements of the SOW and the evaluation criteria of this RFP are satisfied (i.e. SOW element versus Offeror's proposal page numbers). It is intended that this be a simple matrix that should in no way inhibit an innovative approach or burden the Offeror. This proposal matrix is excluded from the page limitations contained in paragraph (b)(1) below.

(6) Information shall be precise, factual, detailed and complete. Offerors shall not assume that the evaluation team is aware of company abilities, capabilities, plans, facilities, organization or any other pertinent fact that is important to accomplishment of the work as specified in the SOW. The evaluation will be based primarily on the information presented in the written proposal. The proposal shall specifically address each listed evaluation factor.

(2) A page is defined as one side of a sheet, 8-1/2" x 11", with at least one inch margins on all sides, using not smaller than 12 point type Times New Roman font. Line spacing or the amount of vertical space between lines of text shall not be less than single line (Microsoft Word's default line spacing). Character spacing shall be "Normal", not "Expanded" or "Condensed." The margins may contain headers and footers, but shall not contain any proposal content to be evaluated. Foldouts count as an equivalent number of 8-1/2" x 11" pages. The metric standard format most closely approximating the described standard 8-1/2" x 11" size may also be used.

Volumes I, II, III, and IV shall be submitted in separate ringed (or similarly bound) binders. (3) Title pages, tabs, and tables of contents are excluded from the page counts specified in paragraph (1) of this provision (as well as other documents specified in table (b)(1) above). In addition, the Cost volume of your proposal is not page limited except for the page limit for the Basis of Estimate (BOE) section specified in table (b)(1) above. However, this volume is to be strictly limited to cost and price information. Information that can be construed as belonging in one of the other volumes of the proposal will be so construed and counted against that volume's page limitation.

(4) The Government intends to evaluate proposals and award contract(s) without discussions with Offerors (except clarifications as described in FAR 15.306(a)). Therefore, the Offeror's initial proposal should contain the Offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If discussions are held and final proposal revisions are requested, the Government will specify separate page limitations in its request for that submission.

(5) Pages submitted in excess of the limitations specified in this provision will not be evaluated by the Government and will be returned to the Offeror in accordance with NFS 1815.204-70(b).

(End of provision)

## **L.19 OFFER VOLUME (APR 2012)**

This must be a separate volume.

### **(a) STANDARD FORM (SF) 33, OFFEROR FILL INS AND SECTION K**

Blocks 12 through 18 of the SF 33 and the indicated Offeror required fill-ins in Sections B-K must be completed. The signed SF33 and the pages with the required fill-ins must be submitted. Annual representations and certifications shall be completed electronically via the Online Representations and Certifications Application (ORCA) at <http://orca.bpn.gov> in

accordance with provision K.1, Annual Representations and Certifications (52.204-8). The balance of the solicitation need not be returned unless the Offeror has made changes to other pages that will constitute part of the contract. Any such changes must be separately identified in the Summary of Exceptions. **All SF 33s require original signatures.**

(1) It is requested that Offerors indicate, in Block 12 of the SF 33, a proposal validity period of 240 days. However, in accordance with paragraph (d) of FAR provision 52.215-1, "Instructions to Offerors--Competitive Acquisitions," a different validity period may be proposed by the Offeror.

(2) Provide the names, phone numbers, and email addresses of persons to be contacted for clarification of questions of a technical nature and business nature. Identify any consultants and/or subcontractors used in writing this proposal (if any) and the extent to which their services will be available in the subsequent performance of this effort.

The contract schedule refers to TBD and TBP. They are defined as follows:

TBD = TO BE DETERMINED BY THE GOVERNMENT

TBP = TO BE PROPOSED BY THE CONTRACTOR

(b) SUMMARY OF EXCEPTIONS

Include a statement of acceptance of the anticipated contract provisions and proposed contract schedule, or list all specific exceptions to the terms, conditions, and requirements of Sections A through J of this solicitation, to the Representations and Certifications (Section K) or to the information requested in Section L. Include the reason for the exception, or refer to where the reason is addressed in the proposal. This list must include all exceptions, both "business" and "technical".

Include any new terms, conditions or clauses proposed by the Offeror which are of benefit to the Government. Discuss the benefit to the Government in Volume I, II, III, or IV as appropriate.

Offerors are cautioned that exceptions or new terms, conditions, or clauses may result in a determination of proposal unacceptability (NFS 1815.305-70), may preclude award to an Offeror if award is made without discussions, or may otherwise affect an Offeror's competitive standing.

(c) ADDITIONAL INFORMATION TO BE FURNISHED

(1) Business Systems

State whether all business systems, including but not limited to accounting, property control, purchasing, estimating, and employee compensation, which require Government acceptance or approval (as applicable) are currently accepted/approved without condition.

Provide the date of acceptance/approval for each system and the cognizant contract administration office. Explain any existing conditional acceptances/approvals and the compliance status of any systems(s) for which acceptance or approval is currently withheld.

FAR 16.301-3 requires that a contractor's accounting system be adequate for

determining costs applicable to the contract prior to the award of a cost-reimbursement contract. The Offeror shall provide evidence of an adequate accounting system as determined by the cognizant administrative office for accumulating and reporting incurred costs. An adequate accounting system is not an evaluation criterion. It is a basic contract requirement with a pass/fail determination. A contract may only be awarded to the Offeror(s) who are determined to have an adequate accounting system.

Offerors who do not have a cognizant DCAA adequate accounting system determination shall provide evidence of any independent audit and system approvals as well as documented system ability to segregate and accrue costs by contract.

(2) Contract Administration

Furnish the information listed below:

- a. Cognizant Government audit agency with mailing address, email address, telephone number, and fax number.
- b. Cognizant Government inspection agency with mailing address, email address, telephone number, and fax number.
- c. Cognizant Government Administrative Contracting Officer by name with mailing address, email address, telephone number, and fax number.

(3) Responsibility Information

Provide information addressing all of the elements under FAR 9.104 to demonstrate responsibility (address the elements under this section that are not addressed in another proposal volume).

(4) Taxpayer Identification Number

Prime Offerors shall provide their Taxpayer Identification Number (TIN) (the number required by the Internal Revenue Service (IRS) to be used by the Offeror in reporting income tax and other returns).

(5) Subcontractor Listing

The Offeror shall provide a summary listing (by name and address) of all subcontractors (regardless of dollar value) that have been identified throughout the Offeror's proposal and the subcontract value associated with each entity.

(6) 8(a) Joint Venture

If an 8(a) joint venture is proposed, the Offeror **should** submit a Small Business Administration (SBA) signed and approved joint venture agreement with submission of the proposal. If SBA has not approved the joint venture agreement at the time of proposal submission, the Offeror shall describe its status in achieving joint venture approval from the Small Business Administration, including:

- Identify the companies included in the joint venture.
- Identify the district SBA office and SBA Point of Contact/Business Development Specialist (name, address, phone number, and email) that the application was submitted

to for review and approval.

- If not yet approved, identify the steps you have taken toward achieving approval **by the anticipated contract award date** (include applicable dates of each activity).

SBA must approve a joint venture agreement prior to the award of an 8(a) contract on behalf of the joint venture.

Award of the contract will only be made to a SBA approved 8(a) company or 8(a) Joint Venture.

#### (7) Organizational Conflicts of Interest

In accordance with NFS 1837.203-70, Providing Contractors Access to Sensitive Information, Offerors shall provide a preliminary analysis of possible organizational conflicts of interest that might flow from the award of this contract and how they will deal with the OCI issues presented in the areas of: 1.) unequal access to information; 2.) biased ground rules; 3.) impaired objectivity. Within 30 days after contract award, the successful contractor shall submit for NASA approval a comprehensive Organizational Conflicts of Interest Avoidance Plan, which will be incorporated into the contract under Clause J.1, Attachment H, Organizational Conflicts of Interest Avoidance Plan. This comprehensive plan shall incorporate any previous studies performed; thoroughly analyze all organizational conflicts of interest that might arise because the Contractor has access to other companies' sensitive information; and establish specific methods to control, mitigate, or eliminate all problems identified. The Contracting Officer shall review the plan for completeness and identify to the Contractor substantive weaknesses and omissions for necessary correction. Once the Contractor has corrected the substantive weaknesses and omissions, the Contracting Officer shall incorporate the approved plan into the contract, as a compliance document.

## **L.20 MISSION SUITABILITY PROPOSAL INSTRUCTIONS (COMPETITIVE) (MAR 2011)**

### Contents of Mission Suitability Proposal Instructions

1. General Instructions
2. Mission Suitability Proposal Format
3. Mission Suitability Instructions by Subfactor
4. Offeror Deviations/Exceptions

#### **1. General Instructions**

The Mission Suitability Proposal should be specific, detailed, and provide all the information requested by these instructions. The Mission Suitability Proposal must demonstrate that the Offeror understands the requirements and has the ability to meet the requirements. General statements such as the "requirements are understood" or "standard procedures will be employed" are not adequate. Also, restatement or paraphrasing of the requirements should be avoided. Information previously submitted, if any, will not be considered unless it is resubmitted as part of the proposal. It must not be incorporated by reference.

The Offeror must identify and discuss the risk factors associated with accomplishment of the

requirements of the contemplated contract. This must be done as appropriate in the Mission Suitability Proposal. Risk factors may be those inherent in the work, unique to the Offeror's chosen approach, and must include any risk factors that are specifically identified by the Government in this solicitation. General areas of possible risk that are of concern to NASA are technical, schedule, cost, safety, occupational health, security (including personnel, information technology), export control and environmental risks. The identification of risks is the responsibility of the Offeror. However, these instructions may include Government identified risks that the Offeror must also address. The Offeror's discussion of a risk factor should provide the Offeror's approach to managing the risk--the probability of the risk, impact and severity, time frame and risk acceptance or mitigation.

## **2. Mission Suitability Proposal Format**

The Mission Suitability Proposal must be divided and presented by each Mission Suitability subfactor as follows:

Subfactor A Technical Approach/Representative Task Orders  
Subfactor B - Management Plan  
Offeror Deviations/Exceptions

The format for the Mission Suitability Proposal shall parallel, to the greatest extent possible, the format of the evaluation factors and sub factors contained in Section M of this solicitation.

## **3. Mission Suitability Instructions by Subfactors**

### **Subfactor A- Technical Approach/Representative Task Orders**

**THE OFFEROR IS NOT TO PERFORM ANY ACTUAL WORK OR PRODUCE ANY DELIVERABLES ON THE REPRESENTATIVE TASK ORDERS IN RESPONSE TO THE RFP.**

The hypothetical problems included in Exhibit 17 of the RFP are to help us understand how you as our Contractor, would carry out representative tasks associated with the SOW.

The Offeror shall describe its approach to implementing and staffing each RTO. The response must be specific, detailed, and complete enough to demonstrate your understanding of the technical objectives and problems in meeting the RTO requirements.

Each response to the representative task orders shall address the following:

- Discussion of how the assignments would be accomplished, including technical approach, Government interface and schedule.
- Identification of potential technical problems, risks and critical issues, thoroughness of the response to problem mitigation/resolution, and reasonableness of the basis for any assumptions made.
- Proposed staffing plan, including skill mix and level of staffing needed to accomplish the objectives.
- Additional resources necessary to successfully complete the work assignment.

The Offeror shall describe any new or innovative methods, techniques or technologies that are proposed by the Offeror in the RTOs with respect to their benefit to the Government. The

Offeror shall identify the proposed method, technique or technology and how they impact the performance.

The Offeror shall provide a narrative response that expands on the functions in the Statement of Work (SOW) that are not covered by the RTOs.

Any assumptions made in preparing a response to the RTOs must be clearly stated.

### **Subfactor B-Management Approach**

The Offeror shall describe the organizational structure, policies, procedures, and techniques for efficiently managing the proposed work. Discuss interrelationships of technical management, business management, and subcontract management. Include an organizational chart that identifies where this contract fits in the corporate structure. Also provide an organizational chart for this program identifying all managerial positions by title.

The offer shall provide a detailed description of the responsibilities and authorities for management of this contract, from lower levels through intermediate management to top-level management. The Offeror should include such elements as the span of control, degree of autonomy, and lines of communication. The plan should also discuss the processes for resolving priority conflicts for resources and functions within the organization. The Offeror's approach shall contain an in-depth discussion of the independence and autonomy of the Program Manager, clearly stating the Program Manager's resources/functions necessary to accomplish the work, including their authority to utilize and redirect subcontract resources.

If subcontractors are proposed, identify their interfaces to your organizational structure and provide: 1) a separate organization chart for each subcontractor, 2) the basis for selection of the subcontractor, 3) the nature and extent of the work to be performed by the subcontractor, and 4) the benefits of these arrangements to the Government. The Offeror shall discuss its plan for addressing any problems that arise as a result of the proposed organization structure or poor and/or non-performance of subcontracted portions of the contract.

The Offeror shall provide a detailed phase-in plan that addresses, at a minimum, the Offeror's approach to phase-in sufficient to ensure continuity and a smooth transition with the incumbent Contractor up to a 30-day phase-in period. The phase-in plan shall clearly demonstrate an ability to assume full contract responsibility on the effective date of the contract. The phase-in plan shall also specifically address how ongoing work will be maintained, the proposed management organization, schedule, orientation and training of personnel. The effort involves onsite performance, therefore the Offeror shall address their preparation for the timely processing of the Personal Identify Verification (PIV) requirements. If the phase-in plan assumes any dependency upon the incumbent contractor, please identify. Also, specify the extent of involvement of NASA personnel during this period.

The 30-day phase-in period will be accomplished through the issuance of a separate firm-fixed price contract vehicle.

The Offeror shall describe how they intend to staff this effort and how the approach will allow the Offeror to meet the requirements of this contract. The Offeror shall include the expected number of personnel to be hired from incumbents, those to be transferred from within the Offeror's own organization, and those from other sources. Describe what effort will be undertaken to recruit staff not currently in the company. The Offeror shall discuss their staffing approach and

strategies if their primary staffing strategy is not completely successful. The Offeror shall indicate its ability to staff for fluctuating requirements from existing resources and from outside sources. The Offeror shall address the methods, practices, and incentives, which contribute to the proposed employee retention, morale, and productivity.

The Offeror shall provide written Position Descriptions for each specific labor category envisioned necessary to meet Contract requirements. Each Position Description shall not exceed ½ page in length. Position Descriptions shall address minimum qualifications to include necessary experience, specific requirements (i.e., domain knowledge), and minimum education required for the position.

Task orders will be issued in accordance with the Task Ordering Procedure clause in Section H of this RFP. Detail your process for responding quickly and efficiently to requests for task plans. Detail your plans for organizing, assigning staff, tracking, and managing task orders from task initiation to completion, including configuration control, subcontracting, schedule, and cost. The Offeror shall describe their approach to managing multiple tasks.

The Offeror shall submit a written Quality Assurance Plan (QAP) that shall identify the Offeror's approach to ensuring quality services throughout the duration of the contract. Specifically, the Offeror shall identify in the plan the procedure for continually monitoring, surveilling, identifying and correcting deficiencies. The QAP shall describe the Offeror's method (i.e. 100% inspection, planned sampling, random sampling, customer complaints, or incidental inspections) to determine whether performance requirements in the SOW and the task orders are met. The QAP shall describe methodology for continuous improvement and whether measurements of performance are subjective or objective and shall identify the quality, quantity, and timeliness of the services to be provided. The QAP will be incorporated into the contract as an Attachment.

The Offeror shall provide a Total Compensation Plan (TCP) for all personnel proposed, in accordance with NFS provision 1852.231-71, "Determination of Compensation Reasonableness," and FAR provision 52.222-46, "Evaluation of Compensation for Professional Employees." The required professional compensation plan must:

Classify all labor categories proposed as "exempt" or "non-exempt" positions. Briefly define the terms "exempt" and "non-exempt" as used by your organization and correlate your definition with that provided for in the Code of Federal Regulations.

Identify the categories of personnel that are in a bona fide executive, administrative or professional capacity as defined by FAR 22.1102 and 29 CFR 541.

In accordance with the Exhibit 11 and 12 "Fringe Benefit Chart", the Offeror and all service subcontractors (as defined in paragraph (d) of NFS provision 1852.231-71) shall provide a detailed list of their fringe benefits and company estimated cost per hour, along with an itemization of the benefits that require employee contributions and the amount of that contribution as a percentage of the total cost of the benefit. Two exhibits shall be submitted, one containing the average of fringe benefit information for all the exempt labor categories and one containing the average of fringe benefit information for all the non-exempt labor categories. (The Mission Suitability Proposal must not include Exhibit 11 and 12 but should reference where the information appears in the Cost Proposal.)

Provide supporting data, such as recognized national, regional, and local compensation surveys and studies of professional, public and private organizations, used in establishing the total

professional compensation structure.

The Offeror shall provide a Safety and Health Plan in accordance with NFS Provision 1852.223-73, "Safety and Health Plan". The Offeror shall discuss its approach to compliance with all applicable NASA policies and procedures relative to safety, occupational health, and NASA Procedural Requirements (NPR) 8715.3 "NASA General Safety Program Requirements."

This plan, as approved by the Government, will be included in any resulting contract. Offerors are directed to NPR 8715.3, Appendix E instructions regarding the contents of Safety and Health Plan. NPR 8715.3 can be accessed at the following website:

<http://nodis3.gsfc.nasa.gov/displayDir.cfm?t=NPR&c=8715&s=3C>

The Offeror shall indicate if any of the standard contents of the Safety and Health Plan, as prescribed by NPR 8715.3, would not be applicable to this specific contract, and provide an explanation for that determination.

#### **4. Deviations/Exceptions**

Identify and explain the reason for any deviations, exceptions, or conditional assumptions taken with respect to these mission suitability proposal instructions or to any of the technical requirements of this solicitation, such as the statement of work and related specifications.

(End of provision)

#### **L.21 COST VOLUME (JAN 2012)**

The Federal Acquisition Regulation (FAR) requires Contracting Officers to purchase supplies and services from responsible sources at fair and reasonable prices. It is expected that adequate price competition will be obtained under this solicitation so that submission of cost or pricing data is not required pursuant to FAR 52.215-20, Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data--Alternate IV. The term "data other than certified cost or pricing data" is defined at FAR 2.101.

##### **1. Instructions**

An important prerequisite for the award of the contract is the prime Offerors must have an accounting system that has been determined adequate by the cognizant administrative office for accumulating and reporting incurred costs prior to contract award. While these proposals are not required to be cost certified, they are to be in sufficient detail to allow direct and indirect rate verification of selected costs. The cost proposal should be prepared in a manner consistent with your current accounting system.

The required format for other than certified cost or pricing data is for evaluation purposes. The cost for any resultant contract will be awarded on the basis of the successful Offeror's normal estimating and/or accounting system or the system set forth in the Cost Accounting Standards Board Disclosure Statement required by Public Law 100-679, if applicable. If the Offeror's estimating and/or accounting practice differs from the required cost proposal format, the costs should be computed in accordance with the Offeror's normal accounting and estimating procedures and provide your rationale for the format adjustments.

Direct labor must be estimated on the basis of productive effort. Productive effort is the estimated number of hours required to perform the work. Vacations, holidays, sick leave, and any other paid absences shall not be cited as direct labor, but shall be separately identified and priced or included in indirect cost.

Final monetary extensions in the cost proposal may be expressed as the closest whole dollar amount, with cents omitted.

Duty charges, if any shall be included in the cost, regardless of whether or not duty free certificates are obtained

A "subcontract" is any contract, purchase order, material order, interorganizational transfer, etc. that is a direct cost to this acquisition. The Offeror shall provide sufficient detail to support and explain all costs proposed. For the purposes of the Cost Volume, a significant subcontractor is defined as a subcontractor expected to exceed 40% of a proposed Representative Task Order (RTO) estimate. A proposed significant subcontractor shall provide the same cost exhibits and supporting information that is requested from the prime Offeror. Prospective significant subcontractors may submit proprietary cost data, under separate cover, directly to the Government no later than the date and time specified in the instructions for receipt of offers for this RFP.

The Offeror shall submit electronic copies of the cost proposal charts contained in the referenced exhibits in Microsoft Excel format on CD-ROMs. Two copies of the CD-ROMs shall be submitted with one copy identified as the backup. This requirement is in addition to the required hard copies. The Offeror shall include all formulas in the cost charts to substantiate the whole dollar amount proposed. The Offeror shall certify that all disks are virus-free. In the event of any inconsistency between data provided on electronic media and hard copies, the hard copy data will be considered to be correct.

Offerors, including proposed significant subcontractors, shall provide one (1) separately packaged copy of their Cost Proposal, marked "NNG12418706R/NASA Proposal Evaluation Material", which the Government will forward to the cognizant Defense Contract Audit Agency (DCAA) office with their audit request. Please ensure that all contact information provided is current and correct.

All pricing and estimating techniques shall be clearly explained in detail (projections, rates, ratios, percentages, factors, etc.) and shall support the proposed costs in such a manner that audit, computation, and verification can be accomplished. All past actuals shall show the periods of time and costs in detail when used as a basis for estimating the proposed costs. The escalation proposed for labor must be stated along with the actual escalation experienced in the last three years. Provide a statement of rationale, including the derivation, for the proposed escalation rates. If escalation is not proposed, explain why. The Offeror shall also discuss the rationale for any escalation proposed for the other cost elements. The Offeror shall also include the company's escalation history for each other cost element experienced in the past three years.

The Government does not intend to issue a separate task order for overall contract program management. Accordingly, in accordance with the Offeror's approved accounting system, clearly indicate how program management costs will be captured and charged. Program management costs must be included in the Representative Task Plan cost estimates in accordance with the instructions in Section 2 below.

The Offeror shall clearly identify and list any cost items that will be routinely direct charged as an Other Direct Cost in all task orders. The supporting rationale associated with these proposed ODC expenses shall also be submitted.

In order to establish the reasonableness and realism of the proposed costs, and the extent to which costs reflect performance addressed in the Mission Suitability Proposal, each Offeror, including proposed significant subcontractors, shall submit the other than cost or pricing data described in Section 2 below.

## 2. Cost Proposal Format

### (a) DIRECT AND INDIRECT RATE SUBSTANTIATION

Indicate how you have computed and applied your indirect costs, including cost breakdowns. Show trends and budgetary forecast data to provide a basis for evaluating the reasonableness of proposed rates. Indicate the rates used and provide an appropriate explanation. Also provide the actual indirect rates realized for the last three contractor fiscal years, annotating if the rate is audited or unaudited.

### (b) DIRECT LABOR AND INDIRECT RATES MATRIX

Offerors shall complete **Attachment D**, Direct Labor Rates, Indirect Rates, and Fixed Fee Matrices, for each contract year. The direct labor and indirect rates are "not to exceed" bid rates. During contract performance, Offerors will be permitted to offer costs for task orders to be placed at lower rates than are listed in these matrix in accordance with the "TASK ORDERING PROCEDURE" and "SUPPLEMENTAL TASK ORDERING PROCEDURES" clauses of this contract. The labor categories proposed must reflect all labor categories and levels within each individual labor category anticipated to perform the requirements of the Statement of Work and Representative Task Orders and should range from entry level to the most senior level.

In **Attachment D**, the prime Offeror shall propose unburdened direct labor rates for all labor categories in Section 1; all individual bid indirect rates in Section 2, and rates or factors for cost estimating relationships in Section 3. Onsite is defined as NASA Goddard Space Flight Center. Offsite is defined as the Contractor's facility. The Offeror's fee rate included in Section 4 of the matrix shall be used to calculate fixed fee for performing all task orders issued under the resultant contract. In Section 5, the Offeror shall include a fully-loaded direct labor rate matrix for each significant subcontractor and each projected subcontractor expected to exceed 40% of the cumulative RTO values. In Section 6, provide Position Qualifications for all Offeror proposed direct labor categories specified in Section 1 and all subcontractors' proposed direct labor categories specified in Section 5.

### (c) SUMMARY OF ESTIMATED COST AND FIXED FEE

**Exhibit 1** summarizes the elements of cost and fixed fee, for all RTOs based on bid labor and bid indirect burden rates.

### (d) REPRESENTATIVE TASK ORDER (RTO) COSTS

Offeror shall complete **Exhibits 2** and **2-A** for each of the RTOs. In this exhibit, Offerors shall

include all costs (direct labor, indirect costs, ODCs, and fee) associated with performing the RTO. Offerors shall use the "not to exceed" bid rates proposed in **Attachment D** for pricing all RTOs.

In addition to the summary cost proposal exhibit for each RTO, Offerors shall provide detailed back-up cost spreadsheets that include the following elements by month:

- Prime and, if proposed, subcontractor(s) labor, including labor hours and rates by individual labor categories for personnel, (**Exhibit 2A**);
- Contract Program Management and Administrative Support costs; include and identify, if not included in indirect costs;
- Indirect labor burden(s) (i.e. Overhead and Fringe Benefits (if separate pool))
- Other Direct Costs (ODCs), including detailed breakout of materials, equipment, travel, computer services, subcontracts, recurring ODCs, and any other miscellaneous other direct costs;
- General & Administrative burden(s)
- Fixed Fee

(e) RTO SOURCE OF PERSONNEL

**Exhibit 3** shows the Offeror's plans to obtain the required personnel for each RTO at the overall RTO task level. The Offeror shall show the total number of staff proposed for each position, how many are available from within the company, how many personnel will be obtained from the incumbent, and how many personnel will be newly hired for the first RTO contract year.

(f) BASIS OF ESTIMATES (BOE)

The BOEs are for the Representative Task Orders only. Each RTO cost proposal shall include a separate BOE section. The Offerors shall give the Government insight into the cost estimating thought processes and methodologies used by the Offeror in estimating the quantities of labor hours/costs, other direct costs, etc. required for successful performance of each RTO. Emphasis should be placed on a description of the cost estimating processes and methodologies themselves, and how these relate to the technical approach described in the proposal. The information provided under this section, along with audit information, will be used to assess cost realism.

As a minimum, include the following information in the BOE in the format that is most convenient, preferably the format which shall be used for the actual contract performance:

- Narrative explaining how you arrived at your estimate of labor hours, including: if your estimate was based on similar program(s), in which case, identify and provide a brief reason why the programs are similar; a standard, in which case, identify the standard and explain if it is from the industry, your company, or a product; or engineering judgment, in which case, explain the philosophies used.
- Complexity factors utilized--all factors must be identified
- Explain in detail how your Program Management and Administrative Support are costed. If direct, explain the estimating approach and assumptions (hours per year, percentage of direct labor hours or costs, etc.). If indirect, identify what pool each function is included.
- Use of any established cost-estimating relationships

- How subcontracts were estimated. Please note if you have experience with the proposed subcontractor(s), if utilized. For any subcontract that has a potential estimated value in excess of the threshold stated in Section 1 instructions above, BOEs must be provided by that subcontract following the above specified format.

An explanation of how all materials, computer services, travel, equipment, and other direct costs were estimated.

BOEs shall be submitted by both the Prime Offeror and all subcontractors and shall comply with the BOE page limitations set forth in PROPOSAL PREPARATIONS—GENERAL INSTRUCTIONS provision of this RFP.

(g) CONTRACTOR FISCAL YEAR TO CONTRACT YEAR RATE CONVERSION EXHIBIT

**Exhibit 4** summarizes the Offeror's **bid** rates for Overhead, G&A, and any "Other" indirect rate that the Offeror proposes. These rates are to be proposed in accordance with their Contractor Fiscal Year and approved accounting system. Please note that the Contract Year Composite indirect rates shall match the rates proposed in **Section 2 of Attachment D**, Direct Labor, Indirect Rates, and Fixed Fee Matrices.

(h) SUMMARY OF RECURRING OTHER DIRECT COSTS (ODCs)

Offerors shall complete **Exhibit 5** for any recurring ODCs (e.g. computer usage, program management, depreciation, administrative support, etc.) routinely bid on an established cost estimating relationship in accordance with your approved accounting system. In this exhibit, the Offerors shall show the percentage, rate, and/or dollar amount used, as well as, a detailed explanation of the basis of application and estimating approaches and assumptions.

**If all recurring ODCs are included in your indirect expenses, DO NOT remove them from your indirect pools and include them in this exhibit. If you do not have any established CERs, insert "NONE" in this exhibit.**

(i) EXPENSE POOLS:

**Exhibit 6** Overhead Expense Pool

**Exhibit 6** shows the details of the expenses in the overhead pool by contractor fiscal year. If fringe benefits are included in a separate pool, provide a separate exhibit entitled, "Fringe Benefit Pool". This exhibit shows the actual expenses for the prior three years and projected expenses through the life of the contract.

If more than one overhead pool is proposed, a separate **Exhibit 6** shall be included for each pool. Include the rationale for multiple overhead pools. If the rates are negotiated forward pricing rates, furnish date of negotiation and with whom negotiated. If not negotiated, furnish explanation and basis of rates.

**Exhibit 7** General and Administrative (G&A) Expense Pool

**Exhibit 7** shows the details of the expenses in the G&A pool by contractor fiscal year. This exhibit shows the actual expenses for the prior three years and projected expenses through the

life of the contract.

If more than one G&A pool is proposed, a separate **Exhibit 7** shall be included for each pool. Include the rationale for multiple G&A pools. If the rates are negotiated forward pricing rates, furnish date of negotiation and with whom negotiated. If not negotiated, furnish explanation and basis of rates.

(i) OTHER DIRECT COSTS (ODCs) BY RTO

Offerors shall complete **Exhibit 8** for each RTO detailing the proposed other direct cost items and costs by contract year.

(j) PROBABLE SUBCONTRACTS

Offerors shall complete **Exhibit 9** summarizing the activities that the Offeror proposes to subcontract out by RTO.

(k) PHASE-IN PLAN

Offerors shall propose the total firm-fixed-price associated with the phase in period (up to 30-day's), which will be performed under a separate, firm-fixed-price order. **Exhibit 10** shall be used to state the proposed price for the phase-in, which is expected to commence on or about TBD.

(l) PRODUCTIVE WORK YEAR CALCULATIONS

**Exhibit 11** summarizes the Offeror's productive work year and how it is calculated. If exempt and non-exempt employees are proposed, separate exhibits must be provided for each classification.

(m) FRINGE BENEFITS EXHIBITS (Total Compensation Plan)

As addressed in the Mission Suitability Proposal instructions, the Offeror and all service subcontractors (as defined in paragraph (d) of NFS provision 1852.231-71) shall provide a detailed list of their fringe benefits and company estimated cost per hour, along with an itemization of the benefits that require employee contributions and the amount of that contribution as a percentage of the total cost of the benefit in **Exhibits 12 and 13**, Fringe Benefit Chart. Two exhibits shall be submitted, one containing the average of fringe benefit information for all the exempt labor categories and one containing the average of fringe benefit information for all the non-exempt labor categories. These exhibits fulfill the Total Compensation Plan requirement under FAR 52.222-46 for non-significant subcontractors.

### 3. Deviations/Exceptions (Cost Volume)

Explain any deviations, exceptions, or conditional assumptions taken with respect to the cost volume instructions or requirements. Any deviations, exceptions, etc. must be supported by sufficient amplification and justification to permit evaluation.

(End of provision)

**L.22 PAST PERFORMANCE VOLUME (MAR 2012)**

An Offeror's past performance record indicates the relevant quantitative and qualitative aspects of performing services or delivering products similar in size and content to the requirements of this acquisition. Content review will include the complexity of the work performed.

The Offeror shall provide, at a minimum, the following information in support of its proposal to facilitate the evaluation of the Offeror's past performance as related to the requirements of the proposed contract.

**(a) INFORMATION FROM THE OFFEROR**

Prime Offerors shall furnish the information requested below for all of your most recent contracts (completed and ongoing) for similar efforts with a minimum average annual cost/fee incurred of \$1M that your company has had within the last 5 years of the RFP release date. Relevance of a past or current contract is evaluated for size and content to include complexity within content.

The fact that a contract meets the minimum dollar threshold for consideration (ex: \$3M) does not guarantee any particular evaluation rating/scoring for size relevance. Indicate which contracts are most related (i.e. similar in size and content) and how they are related to the proposed effort, as well as which contracts were performed by the division of your company (if applicable) that will perform the proposed contract/subcontract.

For the purposes of the Past Performance Volume, a proposed significant subcontractor is defined as any proposed subcontractor that is estimated to meet/exceed an average annual cost/fee of \$500K. The Offeror shall provide the information requested below for any significant subcontractor(s) for those similar efforts within the last 5 years of the RFP release date with a minimum average annual cost/fee incurred of at least 10% of the estimated average annual dollar value of the proposed significant subcontract.

For example (note, these example numbers may not relate to this specific procurement), if a procurement is valued at an average annual value of \$50M and a proposed significant subcontractor for the effort has a proposed average annual cost/fee of \$16M, the Offeror shall provide relevant current/past contract references that have a minimum average annual cost/fee incurred at/above \$1.6M or (10% of \$16M) for that significant subcontractor.

If a prime Offeror or significant subcontractor is submitting past performance data on a current/past contract vehicle that includes multiple tasks, orders, etc, all effort under that contract vehicle may be consolidated for the purposes of meeting the average annual cost/fee incurred in the instructions above and for the purpose of evaluating contract relevance for the proposed requirement.

The Offeror shall provide an estimated value and percentage of work to be performed on this contract by the prime Offeror and each significant subcontractor. Offerors shall estimate prime contract and significant subcontract percentages and value based on an assumption that the contract will meet the Maximum Ordering Value and performance will reflect all areas of the statement of work (Offerors shall also consider other RFP information and available historical performance data in this estimate). Indicate the primary functions (SOW, etc) to be performed by the prime Offeror and each proposed significant subcontractor. Indicate which contracts are most related (i.e. similar in size and content) and how they are related to the proposed effort, as well as which contracts were performed by the division of your company (if applicable) that will perform the proposed contract/subcontract.

If applicable, Offerors may provide the experience or past performance of a parent or affiliated or predecessor company to an Offeror (including a parent or affiliated company that is being otherwise proposed as a subcontractor on this effort) where the firm's proposal demonstrates that the resources of the parent or affiliate or predecessor will affect the performance of the Offeror. The Offeror shall demonstrate that the resources of the parent or affiliate or predecessor company (its workforce, management, facilities or other resources) shall be provided or relied upon for contract performance such that the parent or affiliate or predecessor will have meaningful involvement in contract performance.

**The Offeror shall provide the following information on all past/current contract references that meet the above criteria for the prime Offeror and each significant subcontractor:**

- Customer's name, address, and telephone number of both the lead contractual and technical personnel most familiar with the Offeror's performance record. (Please verify the telephone numbers provided are current and correct).
- Cage Code and/or DUNS Number of the contractor performing the work.
- Contract number, type, and total original and present or final contract value.
- The current contract expenditures incurred to date, the date in which the expenditures have been incurred through, and the Average Annual Cost/Fee Incurred to Date. For example (note, these example numbers may not relate to this specific procurement):

A current five year contract that you are performing has a total estimated value of \$100,000,000. As of the latest cost report which reflected cost/fee through the first 2 years and 4 months of performance, the total amount of cost/fee incurred by the Offeror over the duration of the contract was \$43,500,000.

In this example, an Offeror would provide the following:

Current Contract Expenditures incurred to Date: \$43,500,000

Date in which Expenditures have been incurred through: Insert Date of cost report that indicated cost/fee total of \$43,500,000 after 2 years and 4 months of performance.

Average Annual Cost/Fee Incurred to Date: \$18,669,528 (\$43,500,000/2.33 years)

- Date of contract, place(s) of performance, and delivery dates or period of performance.
- Brief description of contract work and comparability to the proposed effort. It is not sufficient to state that it is comparable in magnitude and scope. Rationale must be provided to demonstrate that it is comparable.
- Method of acquisition: competitive or noncompetitive.
- Nature of award: initial or follow-on. If initial, indicate whether award was preceded by a Government, customer, or Offeror financed study.
- Identify and explain major technical problems and how they were overcome. List any major deviations or waivers to technical requirements that were granted by the customer.
- Identify and explain completion successes and delays, including adherence to program schedules. Provide an assessment of the performance (technical and schedule) on these past programs and support these assessments with metrics such as award or incentive fees earned.

- Cost management history; identify and explain any cost overruns and underruns, and cost incentive history, if applicable.
- Average number of personnel on the contract per year and percent turnover of personnel per year.
- Recent customer evaluations of past performance including Award Fee Evaluation results, Fee Determination Official letters, Annual Performance Evaluation Forms, etc. (Excluded from the page limitation).
- List any contracts terminated (partial or complete) within the past 5 years and basis for termination (convenience or default). Include the contract number, name, address, and telephone number of the terminating officer (please verify telephone numbers). Include contracts that were "descoped" by the customer because of performance or cost problems. (Excluded from the page limitation).

(b) PRIOR CUSTOMER EVALUATIONS (PAST PERFORMANCE QUESTIONNAIRES)

The Offeror and any proposed significant subcontractor(s) as defined in paragraph (a) shall provide the questionnaires provided as Exhibit 16 to each of the above references to establish a record of past performance. The Offeror shall instruct each of its references to return the questionnaire directly to the Government in a sealed envelope. The questionnaire respondent shall be a representative from the technical customer and responsible Contracting Officer with direct knowledge of your firm's performance. If possible, the Offeror and any proposed significant subcontractor(s) shall provide questionnaires to customers from NASA contracts, other Government contracts, and commercial contracts. For proposed significant subcontractor(s), references shall concern only work performed by the subcontractor's business entity that will perform the work under this contract, if awarded.

The Offeror is responsible for ensuring that the questionnaire is completed and submitted directly to the NASA Goddard Space Flight Center Contract Specialist no later than the closing date of this solicitation designated in Block 9 of the SF 33:

NASA Goddard Space Flight Center  
Attn: Keisha Willingham, Code 210.P  
Bldg. 22, Rm. C255  
Greenbelt, MD 20771  
Telephone: 301-286-3010  
E-mail: Keisha.S.Willingham@nasa.gov

The Offeror shall include a list of those to whom the questionnaires were sent, including name of individual, phone number, organization, and contract number. Offerors shall include in their proposal the written consent of their proposed significant subcontractors to allow the Government to discuss the subcontractors' past performance evaluation with the Offeror.

(c) SUMMARY OF DEVIATIONS/EXCEPTIONS (PAST PERFORMANCE PROPOSAL)

Identify and explain the reason for any deviations, exceptions, or conditional assumptions taken with respect to these Past Performance Proposal instructions.

(End of provision)

## **L.23 PROPOSAL MARKING AND DELIVERY (JAN 2010)**

(Offeror: You MUST comply with these instructions to ensure that the designated receiving office can identify, date and time mark, secure, and deliver your proposal to the Contracting Officer.)

### **1. External Marking of Proposal Package(s)**

All proposal packages must be closed and sealed.

The proposal package must include the Offeror's name and return mailing address.

The required mailing address and external marking for proposals is as follows:

"Goddard Space Flight Center  
Greenbelt, MD 20771  
Building 16W—Shipping and Receiving Dock  
Solicitation Number NNG12418706R  
Attn: Keisha Willingham

### **PROPOSAL--DELIVER UNOPENED"**

Suggested additional marking if delivery is made by a commercial delivery service:

"COMMERCIAL DELIVERY PERSONNEL: THIS PROPOSAL MUST BE DELIVERED TO THE DOCK MASTER, BUILDING 16W SHIPPING AND RECEIVING DOCK, NO LATER THAN (OFFEROR—ENTER DATE AND TIME)."

### **2. Designated Receiving Office**

The designated receiving office for proposals is the Shipping and Receiving Dock, Building 16W, Goddard Space Flight Center, which must be accessed from Hubble Road off of Soil Conservation Road, north from Greenbelt Road. Proposals must be received at the designated receiving office **no later than the date and time stated on the solicitation face page.**

The Building 16W Shipping and Receiving dock is open from 7:30AM to 3:30PM, Monday through Friday, except Government holidays. Contractor personnel conduct the GSFC receiving function, which includes mailroom operations. Proposals must be marked with the date and time of receipt, subjected to security screening, secured, and delivered unopened to the Contracting Officer.

There is no public access to the Building 16W Shipping and Receiving Dock. GSFC passes are required for access to the receiving dock.

### **3. Methods of Proposal Delivery**

There are three suggested methods of delivery to the designated proposal receiving office:

- U.S. Postal Service Express Mail
- Commercial Delivery Service
- Delivery by company employee or other individual agent

**It is highly encouraged for all Offerors to use U.S. Postal Service Express Mail or Commercial Delivery Services.**

If proposals are going to be delivered by a company employee or other individual agent that does not already have badged access to NASA/GSFC, the Offeror MUST comply with the following instructions and allow sufficient time (potentially one hour or more) for security processing through the North Gate on Hubble Road:

- a. Vehicle must use the Truck Inspection lane (far right lane).
- b. Driver (and any passenger(s)) must be a U.S. Citizen (no exceptions).
- c. Driver shall state that they are delivering a proposal and provide the specific Solicitation Number. Driver must show a copy of the solicitation cover page (or appropriate solicitation instructions or amendment), which includes the solicitation number and proposal due date. The delivery date should be within 1 week of the proposal due date. The solicitation number shall match the solicitation number on the properly marked proposal packages (see section 1 of this provision).
- d. Driver (and any passenger(s)) must provide a valid Driver's License to the Security Officer for identification and recording purposes.
- e. Vehicle must undergo a GSFC Security vehicle inspection.
- f. Driver will be provided with a pass authorizing them to proceed directly to the Shipping and Receiving Dock, Building 16W, ONLY.
- g. After delivering the proposal, the vehicle must immediately exit GSFC back through the North Gate.
- h. If the Solicitation documentation is not provided, the proposal packages are not properly marked, or the driver/vehicle does not pass security procedures, the driver may not be granted access through the North Gate and will be instructed to go the GSFC Main Gate on Greenbelt Road for security processing. If this happens, the driver should contact the Contracting Officer named in this solicitation for further assistance. Note, any delays associated with this process will not result in the Government's acceptance of a late proposal, which is why the use of the U.S. Postal Service or Commercial Delivery Services are highly encouraged.

Regardless of the method of delivery chosen, the Offeror is responsible for delivery of the proposal to the designated receiving office no later than the date and time stated on the face page of the solicitation.

## **L.25 PROVISIONS INCORPORATED BY REFERENCE -- SECTION L**

Provision(s) *L.1 through L.7* at the beginning of this Section are incorporated by reference, with the same force and effect as if they were given in full text. Provisions incorporated by reference which require a fill-in by the Government include the text of the affected paragraph(s) only. This does not limit the provision to the affected paragraph(s). The Contractor is responsible for understanding and complying with the entire provision. The full text of the provision is available at the addresses contained in provision 52.252-1, Solicitation Provisions Incorporated by Reference, of this solicitation.

## **SECTION M - EVALUATION FACTORS FOR AWARD**

### **M.1 52.222-46 EVALUATION OF COMPENSATION FOR PROFESSIONAL EMPLOYEES. (FEB 1993)**

(a) Recompetition of service contracts may in some cases result in lowering the compensation (salaries and fringe benefits) paid or furnished professional employees. This lowering can be detrimental in obtaining the quality of professional services needed for adequate contract performance. It is therefore in the Government's best interest that professional employees, as defined in 29 CFR 541, be properly and fairly compensated. As part of their proposals, Offerors will submit a total compensation plan setting forth salaries and fringe benefits proposed for the professional employees who will work under the contract. The Government will evaluate the plan to assure that it reflects a sound management approach and understanding of the contract requirements. This evaluation will include an assessment of the Offeror's ability to provide uninterrupted high-quality work. The professional compensation proposed will be considered in terms of its impact upon recruiting and retention, its realism, and its consistency with a total plan for compensation. Supporting information will include data, such as recognized national and regional compensation surveys and studies of professional, public and private organizations, used in establishing the total compensation structure.

(b) The compensation levels proposed should reflect a clear understanding of work to be performed and should indicate the capability of the proposed compensation structure to obtain and keep suitably qualified personnel to meet mission objectives. The salary rates or ranges must take into account differences in skills, the complexity of various disciplines, and professional job difficulty. Additionally, proposals envisioning compensation levels lower than those of predecessor contractors for the same work will be evaluated on the basis of maintaining program continuity, uninterrupted high-quality work, and availability of required competent professional service employees. Offerors are cautioned that lowered compensation for essentially the same professional work may indicate lack of sound management judgment and lack of understanding of the requirement.

(c) The Government is concerned with the quality and stability of the work force to be employed on this contract. Professional compensation that is unrealistically low or not in reasonable relationship to the various job categories, since it may impair the Contractor's ability to attract and retain competent professional service employees, may be viewed as evidence of failure to comprehend the complexity of the contract requirements.

(d) Failure to comply with these provisions may constitute sufficient cause to justify rejection of a proposal.

(End of provision)

### **M.2 PROSPECTIVE CONTRACTOR RESPONSIBILITY**

(a) The standards and procedures for determining whether prospective contractors and subcontractors are responsible are set forth in FAR Subpart 9.1. Deficiencies concerning the general standards of prospective contractor responsibility at FAR 9.104-1, and any special standards established for this procurement under FAR 9.104-2, may be serious enough to result in a determination of non-responsibility. As with all aspects of prospective contractor responsibility, a finding of non-responsibility can be made at any time prior to contract award. However, even if such deficiencies are not so serious to result in such a determination, they will

nonetheless be considered in the evaluation as conducted under the evaluation factors set forth in this solicitation.

(b) The following special standards of responsibility have been established for this procurement:

**None**

(End of text)

### **M.3 SOURCE SELECTION AND EVALUATION FACTORS—GENERAL (JUL 2009)**

#### **1. Source Selection**

This competitive negotiated acquisition shall be conducted in accordance with FAR 15.3, "Source Selection", and NASA FAR Supplement (NFS) 1815.3, same subject. The Source Evaluation Board procedures at NFS 1815.370, "NASA Source Evaluation Boards" will apply.

The attention of Offerors is particularly directed to NFS 1815.305, "Proposal evaluation" and to NFS 1815.305-70, "Identification of unacceptable proposals".

A trade-off process, as described at FAR 15.101-1, will be used in making source selection.

#### **2. Evaluation Factors and Sub-factors**

The evaluation factors are Mission Suitability, Cost/Price, and Past Performance. These factors, as described at NFS 1815.304-70, will be used to evaluate each proposal. This Section M provides a further description for each evaluation factor.

#### **3. Relative Order of Importance of Evaluation Factors and Mission Suitability Subfactors**

The Cost Factor is significantly less important than the combined importance of the Mission Suitability Factor and the Past Performance Factor. As individual Factors, the Cost Factor is less important than the Mission Suitability Factor but more important than the Past Performance Factor.

The relative order of importance of the significant subfactors for Mission Suitability are outlined under M.4.

(End of provision)

### **M.4 MISSION SUITABILITY FACTOR (JUNE 2012)**

The Mission Suitability evaluation will take into consideration whether the resources proposed are consistent with the proposed efforts and accomplishments. Whether they are overstated or understated for the effort to be accomplished as described by the Offeror and evaluated by NASA. The Offeror's justification for the proposed resources will be considered in this evaluation. If the Offeror's proposal demonstrates a lack of resource realism, it will be evaluated as demonstrating a lack of understanding or commitment to the requirements.

## Contents of Mission Suitability Factor Evaluation Section

1. Mission Suitability Subfactors
  - Subfactor A- Technical Approach/Representative Task Orders
  - Subfactor B- Management Approach
2. Deviations and Exceptions
3. Evaluation Findings
4. Weights and Scoring

### **1. Mission Suitability Subfactors**

The Offeror's response to the RTOs presented in **Exhibit 17** of the RFP, will serve as a basis for the evaluation of how the Offeror will carry out individual work assignments. The Offeror will be evaluated on how it will implement and staff assignments as illustrated in the RTOs.

#### **Subfactor A- Technical Approach/Representative Task Order**

The Government will evaluate the Offeror on how well it demonstrates an understanding of the RTOs objectives and problems.

In the evaluation of the RTOs, the Government will evaluate the following:

- Thoroughness and merit of discussion of how the assignment would be accomplished, including technical approach, Government interface and schedule.
- Completeness and accuracy in the identification of potential technical problems, risks and critical issues, thoroughness of the response to problem mitigation/resolution, and reasonableness of the basis for any assumptions made.
- Realism and merit of proposed staffing plan, including skill mix and level of staffing needed to accomplish the objectives.
- Realism of additional resources necessary to successfully complete the work assignment.

The Government will evaluate any new or innovative methods, techniques or technologies or other resources, such as facilities and equipment, necessary to successfully accomplished the task that are proposed by the Offeror in the RTOs with respect to their benefit to the Government. The Government will evaluate for reasonableness the proposed method, technique or technology and how they impact the performance.

The Government will review and evaluate the technical approach to functions in the SOW that are not covered by the RTOs in Exhibit 17 for reasonableness.

The Government will review and evaluate any assumptions for reasonableness.

#### **Subfactor B-Management Approach**

The Offeror's organizational structure (considering both prime Contractor and all subcontracted portions of the effort) and the proposed lines of communications between organizational elements will be evaluated in terms of its ability to provide the services proposed, to integrate the various functions outlined in the SOW, and to handle problems and enhance overall

effectiveness. The Government will evaluate the Offeror's organizational structure to determine its ability to effectively and efficiently manage the proposed work.

The Government will evaluate whether the organization provides clear lines of authority as depicted in the management hierarchy and clearly identifies how the Contract will be functionally organized. The proposed approach to communicating with and providing individual activity/task and programmatic information to the Government will be evaluated in terms of its efficiency. The Government will evaluate the effectiveness of the Program Manager's control over and ability to obtain essential resources/functions necessary to accomplish work in addition to his/her authority to utilize and redirect subcontract resources. The proposed approach for resolving priority conflicts and resources will be evaluated for effectiveness.

The Government will evaluate the use of proposed significant subcontractor(s) and will evaluate the nature and extent of work performed by subcontractors for effectiveness and benefit to the Government. The Offeror's plans for addressing problems and/or non-performance for subcontracted portions of the subcontract will be evaluated to ensure effective Contract compliance. The Government will evaluate the Offeror's basis for proposing subcontracting with respect to choice of subcontractor(s) and the corresponding work, and will evaluate the management procedures for monitoring and controlling those arrangements. The Offeror will be evaluated on thoroughness and completeness of its plan for integrating the efforts of the prime contract with any proposed subcontracts.

The Government will evaluate the Offeror's phase-in (transition) plan for continuity and a smooth transition with the incumbent Contractors during the up to 30 -day phase-in period. The Government will evaluate how clearly the phase-in plan demonstrates an ability to assume full Contract responsibility on the effective date of the Contract and its realism. The Government will evaluate the effectiveness of the phase-in plan, specifically how ongoing work will be maintained. The proposed management organization, staffing plan, and training of personnel will also be evaluated for effectiveness. The schedule will be evaluated for realism and the likelihood of its successful completion by the end of the up to 30 -day phase-in period. The Government will evaluate the Contractor's Personal Identify Verification (PIV) requirements on timely processing preparation. If incumbent capture is proposed, the Government will evaluate the reasonableness of the Offeror's approach to attract and retain the incumbent staff.

The methods for ensuring staffing will be evaluated for effectiveness to assume full Contract responsibility in order to meet on-going Contract requirements as well as emergent and fluctuating work requirements. The Offerors method and ability to staff for fluctuating requirements will be evaluated from existing resources and from outside sources. The Government will evaluate the Offeror's methods, practices, and incentives, that contribute to the proposed employee retention, morale, and productivity for reasonableness.

The breadth and scope of the proposed labor categories along with their respective qualification narratives, experience, and education will be evaluated to determine the appropriateness and the adequacy of the Offeror to fulfill the contract requirements. The Offeror's explanation for its approach in identifying the optimum skill mix and matching the skill mix to services/functions in the requirements of the SOW and representative task orders will be evaluated to ensure requirements will be met.

The Government will evaluate for effectiveness the Offerors detailed process for responding quickly and efficiently to request for task plans. The Government will evaluate Offerors plan for appropriateness for organizing, assigning staff, tracking, and managing task orders from task

initiation to completion, including configuration control, subcontracting, schedule, and cost. The Offerors explanation for its approach to managing multiple tasks will be evaluated to ensure requirements will be met.

The Government will evaluate the Offeror's Quality Assurance Plan for comprehensiveness and effectiveness in ensuring quality assurance concepts and principles are implemented and used throughout the Contract. The Offeror's methodology for continuous improvement, and performance measurements, will be evaluated to determine if the Offeror is continually evaluating its own performance to ensure quality services are provided to the NASA/GSFC Code 110 Office of Human Capital Management.

The Government will evaluate the Offeror's total compensation plan to determine if it reflects a sound management approach and understanding of the Contract requirements. The total compensation plan will be evaluated for the Offeror's ability to provide uninterrupted high-quality work. The Total Compensation Plan will be evaluated for its expected impact on recruiting and retention and its realism. The Plan will be evaluated to determine if the compensation levels proposed reflect a clear understanding of the work to be performed and that the capability of the proposed compensation is structured to obtain and keep suitably qualified personnel to meet mission objectives. Offerors are cautioned that lowered compensation for essentially the same professional work may indicate lack of sound management judgment and lack of understanding of the requirement.

The Government will evaluate the appropriateness of the Offeror's proposed "exempt/non-exempt", executive, administrative and professional support personnel based on the training, experience and skills required in the position descriptions for these roles.

The Offeror's supporting data used in establishing the total professional compensation structure will be evaluated for reasonableness.

The Government will evaluate the adequacy of the Offeror's Safety and Health Plan to ensure that supplies and services are furnished in a safe and healthful manner, and that the Offeror develops, produces, and/or delivers products to NASA that will be safe and successful for their intended use. The Offeror's Safety and Health Plan will be evaluated for compliance with applicable Federal and State statutory and regulatory requirements, as well as compliance with NPR 8715.3, NFS 1852.223-73 and applicable NASA Agency-wide and Installation specific policies and/or procedures including the adequacy of protection of life, health, and well being of NASA and Contractor employees, property and equipment. Further, the Safety and Health Plan will be evaluated to determine the adequacy of protection for subcontractor employees for any proposed subcontract.

## **2. Deviations and Exceptions**

The Government will evaluate the adequacy and realism of the Offeror's reasons for any deviations, exceptions, or conditional assumptions taken with respect to these mission suitability proposal instructions or to any of the technical requirements of this solicitation, such as the statement of work and related specifications.

## **3. Evaluation Findings**

The Government will evaluate proposals by classifying findings as strengths, weaknesses, significant strengths, significant weaknesses, or deficiencies using the following:

Weakness – a flaw in the proposal that increases the risk of unsuccessful contract performance

Significant Weakness – a proposal flaw that appreciably increases the risk of unsuccessful contract performance

Deficiency – a material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level

Strength (not in FAR/NFS) – a proposal area that enhances the potential for successful performance or contributes toward exceeding the contract requirements in a manner that provides additional value to the government (this could be associated with a process, technical approach, materials, facilities, etc.).

Significant Strength (not in FAR/NFS) – a proposal area that greatly enhances the potential for successful performance or contributes significantly toward exceeding the contract requirements in a manner that provides additional value to the government.

After classifying findings, the Offeror's proposals will receive one of the following adjectival ratings for each subfactor under Mission Suitability:

<b><u>ADJECTIVAL RATING</u></b>	<b><u>DEFINITIONS</u></b>
Excellent	A comprehensive and thorough proposal of exceptional merit with one or more significant strengths. No deficiency or significant weakness exists.
Very Good	A proposal having no deficiency and which demonstrates over-all competence. One or more significant strengths have been found, and strengths out balance any weakness that exists
Good	A proposal having no deficiency and which shows a reasonably sound response. There may be strengths or weakness, or both. As a whole, weaknesses not off-set by strengths do not significantly detract from the Offeror's response.
Fair	A proposal having no deficiency and which has one or more weaknesses. Weakness out balance any strength.
Poor	A proposal that has one or more deficiencies or significant weakness that demonstrate a lack of overall competence or would require a major proposal revision to correct.

#### **4. Weights and Scoring**

In accordance with NFS 1815.304-70(b)(1), the Mission Suitability factor will be weighted and scored on a 1000 point scale.

The weights (points) associated with each Mission Suitability subfactors are as follows;

Subfactor A: Technical Approach/RTOS	400
Subfactor B: Management Approach	<u>600</u>
	1000

The Mission Suitability subfactors will be evaluated using the adjectival rating, definitions and percentile ranges at NFS 1815.305(a)(3)(A). The maximum points available for each subfactor will be multiplied by the assessed percent for each subfactor to derive the score for the particular subfactor. For example, if a subfactor has possible 200 points and receives a percent rating 80, then the score for that subfactor would be 160 points.

The Mission Suitability evaluation will include the results of any cost realism analysis. The realism of proposed costs may significantly affect the Offeror's Mission Suitability Score.

(End of Provision)

## **M.5 COST EVALUATION FACTOR (DEC 2010)**

The proposed costs of the Representative Task Orders (RTOs) and the rates proposed in Attachment B, Direct Labor Rates, Indirect Rates and Fee Matrices, will be assessed to determine reasonableness and cost realism. The evaluation will be conducted in accordance with FAR 15.305(a)(1) and NFS 1815.305(a)(1)(B).

Offerors should refer to FAR 2.101(b) for a definition of "cost realism" and to FAR 15.404-1(d) for a discussion of "cost realism analysis" and "probable cost".

Both the "proposed and probable cost" will reflect the Offeror's proposed fee amount. Any proposed fee is not adjusted in the probable cost assessment.

The total FFP Phase-In price and the proposed and probable RTO costs will be presented to the Source Selection Authority.

## **M.6 PAST PERFORMANCE EVALUATION FACTOR (MAR 2012)**

An Offeror's past performance will be evaluated based on FAR Part 15 and the evaluation criteria in this provision. All past performance references must meet the "recent" and minimum average annual cost/fee expenditures criteria provided below for both prime contractor references and significant subcontractor references in order to be evaluated.

For purposes of past performance, the term "Offeror" refers to a prime contractor and its significant subcontractors. Accordingly, the past performance of significant(s) subcontractors shall also be evaluated and attributed to the Offeror. The past performance of a significant subcontractor will be compared to the work proposed to be performed by that subcontractor, and weighted accordingly in assigning the overall past performance adjectival rating to the Offeror. The past performance of the prime contractor will be weighted more heavily than any significant subcontractor or combination of significant subcontractors in the overall past performance evaluation.

A "recent" contract is a contract that is ongoing or completed less than 5 years prior to the issuance of this RFP. Contracts completed more than 5 years prior to issuance of this RFP will not be considered recent and will not be considered or evaluated.

A "relevant" contract depends on the size and content to include complexity with content of the contract with respect to this acquisition.

For a prime contractor's contract reference(s) to be considered at least minimally "relevant", it

must meet/exceed an average annual cost/fee incurred of at least \$1M. Relevance of a past or current contract is evaluated for size and content to include complexity with content. The fact that a contract meets the minimum dollar threshold for consideration (ex.\$3M) does not guarantee any particular evaluation rating/scoring for size relevance.

A proposed significant subcontractor for this procurement is defined as any proposed subcontractor that is estimated to meet/exceed an average annual cost/fee of \$460k. *Note, the definition of significant subcontractor for the past performance evaluation may be different than for the cost evaluation.*

For a significant subcontractor's contract reference(s) to be considered at least minimally "relevant", it must meet/exceed an average annual cost/fee incurred of at least 10% of that portion of this procurement that the subcontractor is proposed (or estimated) to perform.

If the contract is deemed recent and meets the above minimum average annual cost/fee expenditures criteria, the Government will then determine the degree of relevance - ie., level of pertinence - of the contract based on size and content. The term "content" means the type and complexity of services, work, or supplies, in comparison to the requirements of this solicitation. The Government may consider past quantities and periods of performance in evaluating overall relevance.

The performance evaluation will be based primarily on customer satisfaction and/or contract data in meeting technical, schedule, cost, and management requirements. Additional performance factors may include contract administration, occupational health, safety, security, subcontracting plan goals and small disadvantaged business participation targets, if applicable, and other contract requirements.

The Government may review and consider past performance information on other contracts that it is aware of or that are made available from other sources and inquiries with previous customers. These contracts (if any) must meet the above "recent" and minimum average annual cost/fee expenditures criteria to be evaluated.

As part of the past performance evaluation, the Government may attribute the experience or past performance of a parent or affiliated or predecessor company (including a parent or affiliated company that is being otherwise proposed as a subcontractor on this effort) to the proposed prime contractor and/or significant subcontractor(s) where the proposal demonstrates that the resources of the parent or affiliate or predecessor company will affect the performance of the proposed prime contractor and/or significant subcontractor(s). The Government will take into consideration whether the resources of the parent or affiliate or predecessor company (its workforce, management, facilities or other resources) will be provided or relied upon for contract performance such that the parent or affiliate will have meaningful involvement in contract performance. These contracts (if any) must meet the above "recent" and minimum average annual cost/fee expenditures criteria to be evaluated.

An Offeror shall not be rated favorably or unfavorably if the Offeror does not have a record of "recent" and "relevant" past performance or if a record of past performance is unavailable. In such cases the Offeror will receive a "Neutral" rating. However, an Offeror with favorable, recent, and relevant past performance that meets the minimum average annual cost/fee expenditures indicated above may be considered more favorably than an Offeror with no relevant past performance information.

The Government will consider an Offeror's explanation of any problems encountered on any identified contracts, and any corrective actions taken by the Offeror.

The overall confidence rating assigned to an Offeror's Past Performance (see below) will reflect a subjective evaluation of the information contained in the oral presentation, if applicable; written narrative; past performance evaluation input provided through customer questionnaires; and other references, if any, that the Government may contact for additional past performance information.

Past Performance Ratings – The level of confidence ratings set forth below will be used to evaluate the Past Performance factor for each Offeror.

Each of the adjective ratings below has a "performance" component and a "relevance" component as discussed above. As used in the ratings below, the term "pertinent" is equivalent to the term "relevant." The following adjectival rating guidelines will be used when subjectively assessing both components.

Very High Level of Confidence

The Offeror's relevant past performance is of exceptional merit and is very highly pertinent to this acquisition; indicating exemplary performance in a timely, efficient, and economical manner; very minor (if any) problems with no adverse effect on overall performance. Based on the Offeror's performance record, there is a very high level of confidence that the Offeror will successfully perform the required effort.

High Level of Confidence

The Offeror's relevant past performance is highly pertinent to this acquisition; demonstrating very effective performance that would be fully responsive to contract requirements with contract requirements accomplished in a timely, efficient, and economical manner for the most part with only minor problems with little identifiable effect on overall performance. Based on the Offeror's performance record, there is a high level of confidence that the Offeror will successfully perform the required effort.

Moderate Level of Confidence

The Offeror's relevant past performance is pertinent to this acquisition, and it demonstrates effective performance; fully responsive to contract requirements; reportable problems, but with little identifiable effect on overall performance. Based on the Offeror's performance record, there is a moderate level of confidence that the Offeror will successfully perform the required effort.

Low Level of Confidence

The Offeror's relevant past performance is at least somewhat pertinent to this acquisition, and it meets or slightly exceeds minimum acceptable standards; adequate results; reportable problems with identifiable, but not substantial, effects on overall performance. Based on the Offeror's performance record, there is a low level of confidence that the Offeror will successfully perform the required effort. Changes to the Offeror's existing processes may be necessary in order to achieve contract requirements.

Very Low Level of Confidence

The Offeror's relevant past performance does not meet minimum acceptable standards in one or more areas; remedial action required in one or more areas; problems in one or more areas which, adversely affect overall performance. Based on the Offeror's performance record, there

is a very low level of confidence that the Offeror will successfully perform the required effort.

Neutral

In the case of an Offeror without a record of relevant past performance or for whom information on past performance is not available, the Offeror may not be evaluated favorably or unfavorably on past performance [see FAR 15.305(a) (2) (ii) and (iv)].
